To: Parents and Teachers

As you introduce numbers 1 to 10, children will use ten frames, a type of visual organizer.

Ten frames help children see and begin to understand relationships among numbers.

You could ask your children questions like these:

- How many red counters do you see?
- How many parts of the ten frame are covered?
- What number or quantity do you see?
- Or, how many empty spaces in the ten frame are there for the number ___?

They should answer your questions, and you could feedback them.
