Youth In South Africa

Ariane De Lannoy, Malose Langa, 2021-05-05 South Africa is characterised by a youthful population and the challenges and possibilities that characterise the young generation are both warning signs and beacons of hope for a nation founded on social justice Youth in South Africa Agency in visibility and national development takes stock of the nation s development as it affects young people

Authors offer both personal and professional insights into the ways in which the youth navigate their own pathways to adulthood. These include formal and informal engagements with politics as well as protest, unemployment, entrepreneurship, education, religion, experiences with sexuality and violence and a multitude of other life experiences. Contributors paint a picture of the initiative, agency and resilience of the youth as well as the challenges before them. Authors also identify the state of 'waithood' faced by those unable to make the transition out of youth into full adulthood as a result of their socio-economic circumstances and political context. By engaging these experiences and insights and primarily informed by the inputs of young people, the authors highlight the limitations of existing youth policies and frameworks. The case is made for policy instruments to be informed by the lived experiences of the youth as they navigate a complex macrosocial environment and by the messages the youth communicate about the limitations of current approaches.

Accessing Post-School Studies Venicia McGhie & Madge du Preez, 2017-12-01. *Accessing Post-School Studies* A student's GPS to successful learning makes a valuable contribution to often problematic and pertinent South African higher education issues such as student access and success, student learning, student support and student engagement. In this regard, the authors draw on the works of higher education theorists such as Kuh, Tinto, Marton and Sijthoff. The book is primarily a helpful resource for South African learners in school, students at universities, life orientation teachers as well as parents of prospective university students. It will especially assist students to adapt to the university environment. Prof Victor N. Teise Sol Plaatje University, Kimberley, South Africa.

Rebels and Rage Adam Habib, 2019-03-01. Adam Habib, the most prominent and outspoken university official through the recent student protests, takes a characteristically frank view of the past three years on South Africa's campuses in this new book. Habib charts the progress of the student protests that erupted on Wits University campus in late 2015 and raged for the better part of three years, drawing on his own intimate involvement and negotiation with the students and also records university management and government responses to the events. He critically examines the student movement and individual student leaders who emerged under the banners 'fees must fall' and 'Rhodes must fall' and debates how to achieve truly progressive social change in South Africa on our campuses and off. This book is both an attempt at a historical account and a thoughtful reflection on the issues the protests kicked up from the perspective not only of a high-ranking member of university management but also Habib as political scientist with a background as an activist during the struggle against apartheid. Habib moves between reflecting on the events of the last three years on university campuses and reimagining the future of South African higher education.
