public spaces And yet crime rates have plummeted making life in America safer than ever Why then are Americans so afraid and where does this fear lead to In this remarkable work of social history Elaine Tyler May demonstrates how our obsession with security has made citizens fear each other and distrust the government making America less safe and less democratic Fortress America charts the rise of a muscular national culture undercutting the common good Instead of a thriving democracy of engaged citizens we have become a paranoid bunkered militarized and divided vigilante nation The End of Detroit Micheline Maynard,2003-09-23 An in depth hard hitting account of the mistakes miscalculations and myopia that have doomed America s automobile industry In the 1990s Detroit s Big Three automobile companies were riding high The introduction of the minivan and the SUV had revitalized the industry and it was widely believed that Detroit had miraculously overcome the threat of foreign imports and regained its ascendant position As Micheline Maynard makes brilliantly clear in THE END OF DETROIT however the traditional American car industry was in fact headed for disaster Maynard argues that by focusing on high profit trucks and SUVs the Big Three missed a golden opportunity to win back the American car buyer Foreign companies like Toyota and Honda solidified their dominance in family and economy cars gained market share in high margin luxury cars and in an ironic twist soon stormed in with their own sophisticatedly engineered and marketed SUVs pickups and minivans Detroit suffering from a good enough syndrome and wedded to ineffective marketing gimmicks like rebates and zero percent financing failed to give consumers what they really wanted reliability the latest technology and good design at a reasonable cost Drawing on a wide range of interviews with industry leaders including Toyota s Fujio Cho Nissan s Carlos Ghosn Chrysler s Dieter Zetsche BMW s Helmut Panke and GM s Robert Lutz as well as car designers engineers test drivers and owners Maynard presents a stark picture of the culture of arrogance and insularity that led American car manufacturers astray Maynard predicts that by the end of the decade one of the American car makers will no longer exist in its present form *Cities Under Siege* Stephen Graham,2011-11-01 Cities are the new battleground of our increasingly urban world From the slums of the global South to the wealthy financial centers of the West Cities Under Siege traces the spread of political violence through the sites spaces infrastructure and symbols of the world s rapidly expanding metropolitan areas Drawing on a wealth of original research Stephen Graham shows how Western militaries and security forces now perceive all urban terrain as a conflict zone inhabited by lurking shadow enemies Urban inhabitants have become targets that need to be continually tracked scanned and controlled Graham examines the transformation of Western armies into high tech urban counter insurgency forces He looks at the militarization and surveillance of international borders the use of security concerns to suppress democratic dissent and the enacting of legislation to suspend civilian law In doing so he reveals how the New Military Urbanism permeates the entire fabric of urban life from subway and transport networks hardwired with high tech command and control systems to the insidious militarization of a popular culture corrupted by the all pervasive discourse of terrorism **The Hummer** Elaine Cardenas, Ellen Gorman,2007-01-01 The Hummer Myths and
