Bettering Humanomics Deirdre Nansen McCloskey, 2023-06-05 Deirdre Nansen McCloskey's latest meticulous work examines how economics can become a more human science Economic historian Deirdre Nansen McCloskey has distinguished herself through her writing on the Great Enrichment and the betterment of the poor not just materially but spiritually In *Bettering Humanomics* she continues her intellectually playful yet rigorous analysis with a focus on humans rather than the institutions Going against the grain of contemporary neo institutional and behavioral economics which privilege observation over understanding she asserts her vision of humanomics which draws on the work of Bart Wilson Vernon Smith and most prominently Adam Smith She argues for an economics that uses a comprehensive

understanding of human action beyond behaviorism McCloskey clearly articulates her points of contention with believers in imperfections from Samuelson to Stiglitz claiming that they have neglected scientific analysis in their haste to diagnose the ills of the system In an engaging and erudite manner she reaffirms the global successes of market tested betterment and calls for empirical investigation that advances from material incentives to an awareness of the human within historical and ethical frameworks Bettering Humanomics offers a critique of contemporary economics and a proposal for an economics as a better human science
