9 marker:

A trade union is a group of employees whose joint purpose is to maintain and improve their conditions of employment. One of the major objective goals of trade unions is to ensure employees are being paid fairly given the demands of the job and market conditions. Trade unions can take several means to achieve higher pay for its members such as going on strike and leading protests against unfair pay, taking legal action against respective regulatory bodies and taking their case to the media for enhanced publicity.

The actions of the trade union would have the impact shown above in the diagram whereby the wage pushed for by the trade union is above the market equilibrium wage of w^* . In the context of the case study, w^* would be the minimum wage of £8.21 and w_{TU} would be £10.75. The power of trade unions in achieving higher wages must not be underestimated and as mentioned in the case study, since 2014, has organised at more than 20 workplaces and won improved contracts, wage rises and sick for employers including the Daily Mail.

15 marker:

Market failure occurs when the allocation of goods and services by the free market is not efficient, leading to a misallocation of resources.

"Algorithmic Links with Probabilities" Concordance for Trademarks For Disaggregated Analysis of Trademark and Economic Data World Intellectual Property Organization, Travis J. Lybbert, Nikolas Zolas, Prantik Bhattacharyya, 2014 The authors propose an Algorithmic Links with Probabilities ALP approach to match Trademarks TMs data to economic data and enable these data to speak to each other Specifically they construct a NICE Class Level concordance that maps TM data into trade and industry categories forward and backward This concordance allows researchers to analyze differences in TM usage across both economic and TM sectors In this paper the authors apply this ALP concordance for TMs to characterize patterns in TM applications across countries industries income levels and more They also use the concordance to investigate some of the key determinants of international technology transfer by comparing bilateral TM applications and bilateral patent applications

Does Regulation Kill Jobs? Cary Coglianese, Adam M. Finkel, Christopher Carrigan, 2014-01-06 As millions of Americans struggle to find work in the wake of the Great Recession politicians from both parties look to regulation in search of an economic cure Some claim that burdensome regulations undermine private sector competitiveness and job growth while others argue that tough new regulations actually create jobs at the same time that they provide other benefits Does Regulation Kill Jobs reveals the complex reality of regulation that supports neither partisan view Leading legal scholars economists political scientists and policy analysts show that individual regulations can at times induce employment shifts across firms sectors and regions but regulation overall is neither a prime job killer nor a key job creator The challenge for policymakers is to look carefully at individual regulatory proposals to discern any job shifting they may cause and then to

make regulatory decisions sensitive to anticipated employment effects Drawing on their analyses contributors recommend methods for obtaining better estimates of job impacts when evaluating regulatory costs and benefits They also assess possible ways of reforming regulatory institutions and processes to take better account of employment effects in policy decision making

Does Regulation Kill Jobs tackles what has become a heated partisan issue with exactly the kind of careful analysis policymakers need in order to make better policy decisions providing insights that will benefit both politicians and citizens who seek economic growth as well as the protection of public health and safety financial security environmental sustainability and other civic goals Contributors Matthew D Adler Joseph E Aldy Christopher Carrigan Cary Coglianese E Donald Elliott Rolf F re Ann Ferris Adam M Finkel Wayne B Gray Shawna Grosskopf Michael A Livermore Brian F Mannix Jonathan S Masur Al McGartland Richard Morgenstern Carl A Pasurka Jr William A Pizer Eric A Posner Lisa A Robinson Jason A Schwartz Ronald J Shadbegian Stuart Shapiro

Imposing Standards Martin Hearson, 2021-06-15 In Imposing Standards Martin Hearson shifts the focus of political rhetoric regarding international tax rules from tax havens and the Global North to the damaging impact of this regime on the Global South Even when not exploited by tax dodgers international tax standards place severe limits on the ability of developing countries to tax businesses denying the Global South access to much needed revenue The international rules that allow tax avoidance by multinational corporations have dominated political debate about international tax in the United States and Europe especially since the global financial crisis of 2007 2008 Hearson asks how developing countries willingly gave up their right to tax foreign companies charting their assimilation into an OECD led regime from the days of early independence to the present day Based on interviews with treaty negotiators policymakers and lobbyists as well as observation at intergovernmental meetings archival research and fieldwork in Africa and Asia Imposing Standards shows that capacity constraints and imperfect negotiation strategies in developing countries were exploited by capital exporting states shielding multinationals from taxation and depriving nations in the Global South of revenue they both need and deserve Thanks to generous funding from the Gates Foundation the ebook editions of this book are available as Open Access volumes from Cornell Open cornellpress.cornell.edu/cornell-open and other repositories
