Level Dark Origins:

The Spacetime Origin Of the Universe With Visible Dark Matter & Energy Vladimir Ginzburg, 2015-02-10 The Universal Spacetime Theory UST is the main subject of this book It attempts to answer some very interesting questions related to the science and philosophy What is the origin of the Universe How was the Universe created out of nothing What are the structure and properties of ordinary matter that makes up less than 5% of the Universe What are the structure and properties of dark matter that occupies about 27% of the Universe What are the structure and properties of the dark energy that occupies roughly 68% of the Universe Is the communication possible with superluminal velocity

Invisible Universe, The: Dark Matter, Dark Energy, And The Origin And End Of The Universe Antonino Del Popolo, 2021-04-20 This book describes some of the frontier problems of cosmology our almost total ignorance of what the Universe is made up of the mystery of its origin and its end The book starts with a description of the historical events that led to the construction of the Big Bang model together with the stages that transformed the Universe from a very hot place to a very cold one full with the structures that we observe today These structures stars galaxies etc constitute only 5% of the contents of the Universe Concerning the remaining 95% dubbed dark matter and dark energy we know very little and we have only indirect evidence of their existence The text describes the story and the protagonists who showed the need for the existence of this missing matter the observations and puzzles they had to solve to understand that dark matter was not ordinary matter The book describes the hunt for dark matter carried out with instruments operating in space on the Earth's surface and in laboratories built in the bowels of the Earth It also describes dark energy which manifests itself in the accelerated expansion of the Universe and appeared only a few billions of years ago The book discusses why dark energy must exist and what its existence implies especially for the future and the end of our Universe *Egypt at Its Origins* Stan Hendrickx, 2004 This volume published in memory of Barbara Adams presents 57 contributions by authors from 16 different countries and contains the results of the latest research on Predynastic and Early Dynastic Egypt In addition to papers originally presented at the 2002 conference in Krakow there are the invited contributions by the friends and colleagues of Barbara Adams including several on new discoveries from and thoughts about the site of Hierakonpolis New York Minutiae: An Unofficial and Unauthorized Guide to CSI:NY Mila Hasan, 2016-09-16 New York Minutiae aka A New York Minute liked the pun there Focuses on season 1 in detail along with everything you might have wanted to know about the cast As well as general background on all three CSI shows Lots on the concept and how the shows were named and where they would be set As well as quotes from the cast of all three shows Cast biographies and character info too *Dark History of the American Presidents* Michael Kerrigan, 2012-10-31 Dark History of the American Presidents covers every dirty deed committed behind the White House fence from financial profiteering and insider trading to illicit bugging of the opposition including the terms of Presidents George W Bush and Barack Obama **Dark History of the Bible** Michael

Kerrigan,2015-08-19 Human sacrifice floods plagues murders massacres betrayal wars incest sea monsters and dragons how well do we really remember the stories we learnt in school scripture lessons From Genesis to the Book of Revelation Dark History of The Bible explores some of the oldest stories in the world *America's Dark History* H. H. Charles,2021-07-12 Trump s Make America Great Again was a crass slogan intended to appeal to the most antiquated and base emotions resentments and bigotry that plague far too many Americans who still believe in white supremacy Using historical sources found on various research platforms Part I reviews the genocide persecution and bigotry practiced from Columbus to Trump on natives immigrants Africans and others There is no review of Trump as what he has done and is doing is well covered by present day media Acknowledging it is hardly an exhaustive compilation Part II lists the contributions made by those who suffered from their not being white Anglo immigrants to America The book is an attempt to have Americans who will listen and care recognize that America does not need to be made great again America needs to be made great *Level 26* ,2020

The Spacetime Origin of the Universe Vladimir Ginzburg,2013-08-19 This book describes the basic concept of the Universal Spacetime Theory UST During its development I was stimulated by many scientific ideas proposed since the dawn of science that I described briefly in Chapter 1 In the UST these ideas took on a completely new form thanks to my discovery of a spiral string entity that I named the toryx The toryx turned out to be a perfect candidate for a prime element of nature This however was only the tip of the iceberg Besides yielding the unified laws applicable to both micro and macro worlds the toryx helped me to find the answer to the most puzzling question of science *Dark History of Penn's Woods* Jennifer L. Green,2021-10-20 Dark History of Penn s Woods is the perfect book to keep you up all night It s ghostly it s ghastly and we guarantee some of the included photos will stay with you Philly Mag When ships under the command of white Europeans first sailed into the Delaware Bay in 1609 southeastern Pennsylvania s documented history of the strange and unusual began This book tackles seven true dark histories from Chester and Delaware counties which include tales of murder witchcraft cannibalism tragic accidents and macabre events that actually happened in the Greater Philadelphia region All stories are meticulously researched and placed within the greater context of Pennsylvania and world history For example the murder of three children by an indentured servant is placed within the context the kidnapping of children into servitude in England for sale to the Americas The trial and execution of a woman for killing her infants is placed within the context of the rights of women in early America and how the court system failed them The treatment of witchcraft is placed within the larger relationship of Quakers with the supernatural in Pennsylvania This is not a book of ghost stories this is an exploration of the real events that led people to believe in ghosts It aims to strike a balance between a colloquial work that is accessible by a variety of readers and an solid academic work
