It then covers research ethics before moving on to discuss the importance of selecting the right research topic and title and writing a clear abstract. The chapters then cover introducing a research project and the authors include a section on the problem statement, research questions, aims and objectives, research gaps and motivations for the study. The book goes on to cover the literature review, section theoretical and conceptual frameworks, the various types of methodological approaches and when to apply them. The findings section, discussion of the results and the study's implications are then discussed before the final chapters cover the conclusion and recommendations.
