Encyclopedia of the Essay Tracy Chevalier, 2012-10-12 This groundbreaking new source of international scope defines the essay as nonfictional prose texts of between one and 50 pages in length The more than 500 entries by 275 contributors include entries on nationalities various categories of essays such as generic such as sermons aphorisms individual major works notable writers and periodicals that created a market for essays and particularly famous or significant essays The preface details the historical development of the essay and the alphabetically arranged entries usually include biographical sketch nationality era selected writings list additional readings and anthologies **Book of Composition** , *Village Diary of a Heretic Banker* Moin Qazi, 2014-06-06 VILLAGE DIARY OF A HERETIC BANKER is more a diary than an instructive guide The diary provides the flavour of the author s personal experiences as a rural banker and his engagement with the poor in the remote crannies of India The seed around which the book crystallises is the intrinsic tenacity and grit of poor rural women that can be harnessed into energetic powerhouses to drive our rural society onto the road to prosperity The book carries in its pages the poignant nostalgia of the author for villages but it is also tinged at places with rage and despair The message in this book is that there is no grand universal formula for poverty reduction The battle has to be fought on several fronts and what works in one place does not necessarily work everywhere The way forward lies in grassroots field experiments for understanding the causal relationships in poor people s behaviour and in learning by doing The author s faith in poor people s ability to climb out of the rut is unshakeable and his core belief is gradualism The author believes that lasting social change most often and perhaps always comes slowly rather than in a burst of revolutionary fervour It is this belief that has shaped his work He also believes that lasting change can be effected only when women are given equal opportunities for financial empowerment The author firmly believes that it is possible to eliminate poverty in our country provided we re examine the received wisdom of our assumptions The poor are poor not because they are unskilled or illiterate but because they cannot retain the returns of their labour They neither own capital nor does anyone give them access to credit except on the most unreasonable terms They live on the edge in constant fear of a catastrophe or tragedy but they have no insurance because insurance companies consider them a losing proposition And the State s social safety nets are not only grossly inadequate but mired in corruption and bureaucratic red tape During his efforts in development finance and rural development work for over three decades the author has seen projects and strategies succeed as well as fail He has seen misguided project designs poor implementation and squandering of large sums of money But he also witnessed incredible achievements When development works well he argues it can transform lives by providing the underprivileged the capital and knowledge that can open up opportunities for them and reduce their poverty **The Best American Essays of the Century** Joyce Carol Oates, Robert Atwan, 2000 Fifty five unforgettable essays by the finest American writers of the twentieth century **Entrance English Questions Set by the College Entrance Board** College Entrance Examination

Crossing the Blue Willow Bridge Nancy McCabe,2011-11-01 Even before Nancy McCabe and her daughter Sophie left for China it was clear that as the mother of an adopted child from China McCabe would be seeing the country as a tourist while her daughter who was seeing the place for the first time in her memory was going home Part travelogue part memoir Crossing the Blue Willow Bridge immerses readers in an absorbing and intimate exploration of place and its influence on the meaning of family A sequel to Meeting Sophie which tells McCabe s story of adopting Sophie as a single woman Crossing the Blue Willow Bridge picks up a decade later with a much different Sophie a ten year old with braces who wears black nail polish sneaks eyeliner wears clothing decorated with skulls and has mixed feelings about being one of the few non white children in the little Pennsylvania town where they live Since she was young Sophie had felt a closeness to the country of her birth and held it in an idealized light At ten she began referring to herself as Asian instead of Asian American It was McCabe s hope that visiting China would help her become comfortable with both sides of the hyphen figure out how to be both Chinese and American together As an adoptive parent of a foreign born child McCabe knows that homeland visits are an important rite of passage to help children make sense of the multiple strands of their heritage create their own hybrid traditions and find their particular place in the world Yet McCabe still reeling from her mother s recent death wonders how she can give any part of Sophie back to her homeland She hopes that Sophie will find affirmation and connection in China even as she sees firsthand some of the realities of China overpopulation pollution and an oppressive government but also worries about what that will mean for their relationship Throughout their journey on a tour for adopted children mother and daughter experience China very differently New tensions and challenges emerge illuminating how closely intertwined place is with sense of self As the pair learn to understand each other they lay the groundwork for visiting Sophie s orphanage and birth village life changing experiences for them both

Monsters, Monstrosities, and the Monstrous in Culture and Society Diego Compagna, Stefanie Steinhart, 2020-01-28 Existing research on monsters acknowledges the deep impact monsters have especially on Politics Gender Life Sciences Aesthetics and Philosophy From Sigmund Freud s essay The Uncanny to Scott Poole s Monsters in America previous studies offer detailed insights about uncanny and immoral monsters However our anthology wants to overcome these restrictions by bringing together multidisciplinary authors with very different approaches to monsters and setting up variety and increasing diversification of thought as guiding patterns Existing research hints that monsters are embedded in social and scientific exclusionary relationships but very seldom copes with them in detail Erving Goffman s doesn t explicitly talk about monsters in his book Stigma but his study is an exceptional case which shows that monsters are stigmatized by society because of their deviations from norms but they can form groups with fellow monsters and develop techniques for handling their stigma Our book is to be understood as a complement and a further development of previous studies The essays of our anthology pay attention to mechanisms of inequality and exclusion concerning specific historical and present monsters based on their research materials within their specific frameworks in order to create engaging constructive critical and diverse approaches to monsters even utopian visions of a future of societies shared by monsters Our book proposes the usual view that humans look in a horrified way at monsters but adds that monsters can look in a critical and even likewise frightened way at the very societies which stigmatize them

Reimagining Capitalism: Applying Negative Dialectics for a Better Future David Atkinson, 2023-05-09 The Covid 19 pandemic reinforced the perception that capitalism is in crisis that the future is volatile uncertain complex and ambiguous and that increasingly our thinking about it and ability to manage and organize ourselves within it are challenges we are ill equipped for Despite the efforts of many writers and a surfeit of manuscripts concerning the need to rethink capitalism questions concerning the struggle for social and economic justice remain unanswered While some suggest that with corrective action businesses can save the world there is an acceptance that they cannot do so alone However while governments might strengthen their

institutions enacting more effective policies the challenge is simply laid bare at the feet of industry and commerce Is the challenge to confront the establishment just too big to face Government institutions and the barons of industry and commerce are but interrelated interconnected interplaying components in one socio economic system This book offers readers a progressive radical and academic provocation of that system it also proposes a field of Applied Negative Dialectics In Reimagining Capitalism Atkinson confronts the need to rethink capitalism and presents an integrated range of thinking through a lens of applied negative dialectics questioning how and why things might have occurred and where and how we might begin to improve them
