Norris Jr., Robert C. Saler, 1980-08-01 For more than thirty years The Christological Controversy has been an essential text for courses in theology church history and early Christianity that seek to better understand the development of Christology from its earliest roots to the Council of Chalcedon in 451 The volume gives modern readers an idea entry point into the issues by presenting clear fresh translations of the most important primary sources along with simple and informative introductions to explain the context of the writings **The Bird Way** Jennifer Ackerman, 2021-05-04 From the New York Times bestselling author of The Genius of Birds and What an Owl Knows a radical investigation into the bird way of being and the recent scientific research that is dramatically shifting our understanding of birds how they live and how they think There is the mammal way and there is the bird way But the bird way is much more than a unique pattern of brain wiring and lately scientists have taken a new look at bird behaviors they have for years dismissed as anomalies or mysteries What they are finding is upending the traditional view of how birds conduct their lives how they communicate forage court breed survive They are also revealing the remarkable intelligence underlying these activities abilities we once considered uniquely our own deception manipulation cheating kidnapping infanticide but also ingenious communication between species cooperation collaboration altruism culture and play Some of these extraordinary behaviors are biological conundrums that seem to push the edges of well birdness a mother bird that kills her own infant sons and another that selflessly tends to the young of other birds as if they were her own a bird that collaborates in an

extraordinary way with one species ours but parasitizes another in gruesome fashion birds that give gifts and birds that steal birds that dance or drum that paint their creations or paint themselves birds that build walls of sound to keep out intruders and birds that summon playmates with a special call and may hold the secret to our own penchant for playfulness and the evolution of laughter Drawing on personal observations the latest science and her bird related travel around the world from the tropical rainforests of eastern Australia and the remote woodlands of northern Japan to the rolling hills of lower Austria and the islands of Alaska s Kachemak Bay Jennifer Ackerman shows there is clearly no single bird way of being In every respect in plumage form song flight lifestyle niche and behavior birds vary It is what we love about them As E O Wilson once said when you have seen one bird you have not seen them all *Tar Heel Traveler's Good Eats* Scott Mason,2020-03-19 As WRAL TV s full time feature reporter Scott Mason the Tar Heel Traveler has profiled over one hundred food establishments across North Carolina and now he is sharing those wonderful places in his first portable travel guide offering readers an easy way to know where to grab a memorable bite while on their own travels across the state Mason captures the essence of each eatery and highlights favorite dishes Some places are famous for barbecue and others for hot dogs Still others are known for steak seafood fried chicken biscuits doughnuts and ice cream For the most part they are longtime loveable joints full of tradition and loyal customers who are more like friends and family May these places live forever Happy travels and good eatin
