## **My Samoan Chief:**

*My Samoan Chief* Fay Calkins, 2021-05-25 This is an engaging autobiographical account of a young American woman's life in her Samoan husband's native home. Fay Calkins, a descendant of Puritan settlers, met Vai Alailima, a descendant of Samoan chiefs, while working on her doctoral dissertation in the Library of Congress. After an unconventional courtship and a typical American wedding, they set out for Western Samoa, where Fay was to find a way of life totally new and charming, if at times frustrating and confusing. Soon after her arrival in the islands, the bride of a few months found herself with a family of seven boys in a wide range of ages, sent by relatives to live with the new couple. She was stymied by the economics of trying to support numerous guests, relatives, and a growing family, and still contribute to the lavish feasts that were given on any pretext. Feasts where the guests brought baskets in which to take home as much of the largesse as they could carry. Fay tried to introduce American institutions: a credit union, a co-op, a work schedule, and hourly wages on the banana plantation begun by her and her husband. In each instance, she quickly learned that Samoans were unwilling or unable to grasp her Western ideas of input equaling output of personal property or of payment received for work done. Despite these frustrations and disappointments, however, life among the people of her Samoan chief was for Fay happy and productive. **My Samoan**

**Handbook** David Stanley, 1989 A comprehensive guide to the 16 territories of Polynesia and Melanesia, not just the popular spots. This is a guide for the budget traveller to the whole of the South Pacific. Thinking Places Carolyn

Fleming, 2015-06-23 Thinking Places is a literary travel book with tales of many journeys and fresh insights into the lives of thirty-one creative people and the private retreats or pathways used in their work. Adolescent Storm and Stress James E. Cote, 2013-06-17 In 1928 Margaret Mead published her first book, entitled *Coming of Age in Samoa*, in which she described to the Western world an exotic culture where people came of age with a minimum of storm and stress. In 1983 Derek Freeman, an Australian anthropologist, published a book in which he systematically attacked Mead's conclusions about that culture and the way people came of age. Since then, a great deal of attention has been directed toward the Mead-Freeman controversy. This book contributes to that controversy and to the general understanding of adolescent storm and stress by undertaking an interdisciplinary analysis of Freeman's criticisms and an assessment of the plausibility of Mead's work. Addressing the issue of what has become of Mead's Samoa of the 1920s, this book historically tracks the nature of the coming of age in Samoa to the present in order to give the reader an understanding of the circumstances confronting young people in contemporary Samoa. It shows that Mead's Samoa has been lost: what was once a place in which most young people came of age with relative ease has become a place where young people experience great difficulty in terms of finding a place in their society to the point where they currently have one of the highest suicide rates in the world. While much has been written about this controversy during the past decade, a gap exists in the sense that most of the publicity about Mead's work has missed her

main focus concerning the processes governing the coming of age of her informants A valuable historical document and a pioneering study Mead's book anticipated changes that are still unfolding today in the field of human development The preoccupation with issues tangential to her main focus issues involving the Samoan ethos and character have not only diverted a clear analysis of Mead's work they have also led to the creation of a number of myths and misconceptions about Mead and her book The author also has an interest in Mead's original focus on the relative impact of biological and cultural influences in shaping the behavior of those coming of age in all societies Despite what has been said by her critics not only was this a crucial issue during the time of her study but it is also an issue that is now just beginning to be understood some 60 years later In addition the issue of biology versus culture the so called nature nurture debate carries with it many political implications In the case of the Mead Freeman controversy this political agenda looms large an agenda which is clearly spelled out in this book

**Honors Rendered** Robert N. Macomber, 2013-09-15 January 1889 German and American naval forces are engaged in an escalating confrontation in Samoa in the South Pacific Warships are at battle stations Naval reinforcements from both nations are on the way The press in Berlin Hamburg Washington and San Francisco is calling for national honor to be defended At any minute open warfare may erupt All it will take is one spark President Grover Cleveland orders Commander Peter Wake Office of Naval Intelligence to clandestinely accomplish one of two things either somehow prevent all out war between Germany and America or win it decisively at the outset to prevent combat from spreading worldwide Coming up with an admittedly makeshift plan along the way Wake enlists the help of an unlikely trio he encounters in the Pacific a Hawaiian artillery officer a renegade Methodist minister and a beautiful widow Unfortunately for Wake and unbeknownst to him each of them has his or her own motives for heading to Samoa If he fails thousands across the world will die It is a dilemma right out of today's headlines When do you cross the line of civilized behavior to potentially save lives How do you live with the consequences Amidst this dilemma Wake decides to employ a repulsive tactic that results in horror for a member of his team something he will regret for the rest of his life The intrigue is as deadly as the action in this novel which culminates in one of the most significant events in Pacific and American naval history
