Lipstick Traces Greil Marcus, 1990 Greil Marcus author of Mystery Train widely acclaimed as the best book ever written about America as seen through its music began work on this new book out of a fascination with the Sex Pistols that scandalous antimusical group invented in London in 1975 and dead within two years which sparked the emergence of the culture called punk eoel am an antichrist e shouted singer Johnny Rotten ewhere in the world of pop music did that come from Looking for an answer with a high sense of the drama of the

journey Marcus takes us down the dark paths of counterhistory a route of blasphemy adventure and surprise This is no mere search for cultural antecedents Instead what Marcus so brilliantly shows is that various kinds of angry absolute demands edemands on society art and all the governing structures of everyday life e seem to be coded in phrases images and actions passed on invisibly but inevitably by people quite unaware of each other Marcus lets us hear strange yet familiar voices of such heretics as the Brethren of the Free Spirit in medieval Europe and the Ranters in seventeenth century England the dadaists in Zurich in 1916 and Berlin in 1918 wearing death masks chanting glossolalia one Michel Mourre who in 1950 took over Easter Mass at Notre Dame to proclaim the death of God the Lettrist International and the Situationist International small groups of Paris ebased artists and writers surrounding Guy Debord who produced blank screen films prophetic graffiti and perhaps the most provocative social criticism of the 1950s and e tm 60s the rioting students and workers of May e tm 68 scrawling cryptic slogans on city walls and bringing France to a halt the Sex Pistols in London recording the savage eoeAnarchy in the U K e and eoeGod Save the Queen e Although the Sex Pistols shape the beginning and the end of the story Lipstick Traces is not a book about music it is about a common voice discovered and transmitted in many forms Working from scores of previously unexamined and untranslated essays manifestos and filmscripts from old photographs dada sound poetry punk songs collages and classic texts from Marx to Henri Lefebvre Marcus takes us deep behind the acknowledged events of our era into a hidden tradition of moments that would seem imaginary except for the fact that they are real a tradition of shared utopias solitary refusals impossible demands and unexplained disappearances Written with grace and force humor and an insistent sense of tragedy and danger Lipstick Traces tells a story as disruptive and compelling as the century itself

with literary analysis in order to examine the ways in which Camus's concept of revolt in his novels, journalistic writing and philosophical essays reverberates in productions pertaining to that war. Following an examination of Sartre's and Camus's debate over revolution and violence, one that in another iteration asks whether FLN-sponsored terrorism was justified. The Algerian War Retold uncovers how today's writers have adopted paradigms common to both Sartre's and Camus's oeuvres when seeking to break the silence and influence France's national narrative. In the end, it attempts to answer the critical questions raised by literary acts of violence, including whether Camusian ethics ultimately lead to justice for the Other in revolt. These questions are particularly poignant in view of recent presidential declarations in response to years of active pressure applied by associations and other citizens' groups prompting the French government to acknowledge the state's abandonment of the harkis, condemn the repression of peaceful protest and recognize the French army's systematic use of torture in Algeria.

Encyclopedia of French Film Directors Philippe Rège, 2009-12-11. Cinema has been long associated with France, dating back to 1895 when Louis and Auguste Lumière screened their works, the first public viewing of films anywhere. Early silent pioneers Georges Méliès, Alice Guy, BlachZ and others followed in the footsteps of the Lumière brothers, and the tradition of important filmmaking continued throughout the 20th century and beyond. In *Encyclopedia of French Film Directors*, Philippe Rège identifies every French director who has made at least one feature film since 1895. From undisputed masters to obscure one-timers, nearly 3,000 directors are cited here, including at least 200 filmmakers not mentioned in similar books published in France. Each director's entry contains a brief biographical summary, including dates and places of birth and death, information on the individual's education and professional training, and other pertinent details such as real names when the filmmaker uses a pseudonym. The entries also provide complete filmographies, including credits for feature films, shorts, documentaries, and television work. Some of the most important names in the history of film can be found in this encyclopedia, from masters of the Golden Age, Jean Renoir and René Clair, to French New Wave artists such as François Truffaut and Jean-Luc Godard.
