**America, the Owner's Manual** Bob Graham,Chris Hand,2016-07-15 In 2016 Americans fed up with the political process vented that frustration with their votes Republicans nominated for president a wealthy businessman and former reality show host best known on the campaign trail for his sharp rhetoric against immigration and foreign trade Democrats nearly selected a self described socialist who ran on a populist platform against the influence of big money in politics While it is not surprising that Americans would channel their frustrations into votes for contenders who pledge to end business as usual the truth is that we don t have to pin our hopes for greater participation on any one candidate All of us have a say if we learn master and practice the skills of effective citizenship One of the biggest roadblocks to participation in democracy is the perception that privileged citizens and special interests command the levers of power and that everyday Americans can t fight City Hall That perception is undoubtedly why a 2015 Pew Charitable Trusts survey found that 74 percent of those Americans surveyed believed that most elected officials didn t care what people like them thought Graham and Hand intend to change that conventional wisdom by showing citizens how to flex their citizenship muscles They describe effective citizenship skills and provide tips from civic experts Even more importantly they offer numerous examples of everyday Americans who have used their skills to make democracy respond The reader will see themselves in these examples of citizens who chose to be victorious participants rather than tranquil spectators in the arena of democracy By the end of the book you will have new confidence that citizen participation is the lifeblood of America and will be ready to make governments work for you not the other way around

Class Warfare in Black Atlanta Augustus Wood, 2025-05-06 Between 1966 and 2015 the city of Atlanta was transformed In the late 1960s Black politicians ascended to the top of the power structure for the first time thanks to newly enfranchised Black working class voters Through the early 1970s the demographics of the city shifted and the combination of Black empowerment and white flight produced a growing Black working class majority that increasingly demanded Black Power policies that often clashed with the policies supported by affluent residents But by the 2010s Atlanta's city core had been thoroughly gentrified and the ability of Black working class Atlantans to organize and build power had diminished significantly Tracing the history of post civil rights Black Atlanta through rigorous class analysis Augustus Wood argues that Black and white elites responded to an energized and politicized Black working class by forging a public private partnership power bloc that included the small but

growing Black political leadership expanding the racial class contradictions in Black Atlanta This bloc worked to shift state funding away from public services and toward gentrification projects that demolished subsidized housing and it ramped up police surveillance to deter working class resistance Paying close attention to political economy and class while drawing on unexamined archival sources and oral histories of Black working class Atlantans especially Black women Wood reframes our understanding of contemporary Black urban life by highlighting the centrality of the dynamics of intraracial class conflict in urban space

classification of hybrid financial instruments in the national tax rules currently applied by Australia Germany Italy and the Netherlands as well as in the relevant tax treaties and EU Directives Moreover based on selected hybrid financial instruments mismatches in these tax classifications which lead to tax planning opportunities and risks and thus are in conflict with the single tax principle are identified To address these issues the author provides reform options that are in line with the dichotomous debt equity framework as he she suggests the coordination of either tax classifications or tax treatments
