The Author Training Manual Nina Amir,2014-02-18 If you want to write a book that s going to sell to both publishers and readers you need to know how to produce a marketable work and help it become successful It starts the moment you have an idea That s when you begin thinking about the first elements of the business plan that will make your project the best it can be The reality is that you don t want to spend time and energy writing a book that will never get read

The way to avoid that is to create a business plan for your book and evaluate it and yourself through the same lens that an agent or acquisitions editor would. The Author Training Manual will show you how to get more creative and start looking at your work with those high standards in mind. Whether you're writing fiction or non-fiction or intend to publish traditionally or self-publish, author Nina Amir will teach you how to conduct an effective competitive analysis for your work and do a better job at delivering the goods to readers than similar books that are already on the shelf. Packed with step-by-step instructions, idea evaluations, sample business plans, editor and agent commentaries, and much more, The Author Training Manual provides the information you need to transform from aspiring writer to career author.

What Is Writing? A Brief Introduction to Writing as an Act of Communication Johannah Rodgers, 2015-08-25 What Is Writing demystifies many of the things that college students struggle with the most in the first year writing course while at the same time presenting an inquiry-based model for exploring not only what writing is but why it is for many such a complex and interesting subject. Engaging with rather than eschewing the multidimensionality of writing as a subject and practice, What Is Writing asks students to delve into the complex definitions and functions of writing in a digital age while in the process defining some of the key structural, literal, and rhetorical elements of writing. Inviting students to consider writing's past, present, and future and to explore writing as an object, action, and process, What Is Writing presents a concrete framework for thinking and learning about written communication in a variety of genres and disciplines. Used in conjunction with Professor Rodgers' Digital Composition and Rhetoric Web site, which offers links to a wide variety of Open Access readings and writing resources organized by theme and discipline, the book is designed to meet the unique demands of the 21st Century first year writing course.
