### **Life is a journey that is full of obstacles However in many Essay**

Life is a journey that is full of obstacles. However, in many films or even on Television life is oftentimes depicted without real world struggles. Most people would detest having to go through struggles because it is not enjoyable. However, those struggles build one's character and fortifies a society to strive towards a better future.

In today's society, the different struggles have united those oppressed individuals to strive to change the status quo. For example, a recent turning point in society has been the rise of feminism. There have been massive protests and a large number of people largely women, united in the fight for "equality." This notion of equality and the lack of equality towards the female gender has reached a turning point among American society. Not only are women encouraged and empowered to new heights but, they are also breaking barriers in a society that for the most part has been male dominated. Women are now going full force into politics as we seen in this last midterm election, the largest number of women ever elected to office. This is something that in the past feminist would only dream of but, today it has become a reality.

Sandra Cisneros testifies to this struggle in her story "Only Daughter." In Cisneros story she depicts herself as a girl who defies the oppressed society she lives in. A heavily male dominated world. In Cisneros story she states how difficult it was for her to defy the norms that existed during that time. Cisneros states "Only daughter in a family of six sons forced me by circumstance to spend a lot of time by myself because my brothers felt it beneath them to play with a girl in public." This demonstrates how society viewed women. Not only was this a mentality in Cisneros family but, it was also a concept that was ingrained in the mind of society. Men were thought of superior then women and women were treated as such. That is why what we see women being able to reach today is a turning point towards the goal of equality for feminist. It is a struggle that is still being fought but, a fight that has reached its turning point in today's society.

Brenda Combs is another example of life with struggles. In the "Class Act" by Kenneth Miller. He summarizes about Combs life from being a homeless drug addict on to becoming an award-winning teacher. There are times in someone's life that we ask God for guidance and signs. Miller states this plight situation when a homeless man stole Combs sh
