II to the Soviet Union have aspired for dominance by seizing commanding positions in the world's strategic heartland. Offshore sea powers namely the United Kingdom and America have sought to make the world safe for democracy by keeping Eurasia in balance. America's rivalries with China, Russia, and Iran are the next round in this geopolitical game. If this new authoritarian axis succeeds in enacting a radically revised international order, America and other democracies will be vulnerable and insecure. Hal Brands, a renowned expert on global affairs, argues that a better understanding of Eurasia's strategic geography can illuminate the contours of rivalry and conflict in today's world. *The Eurasian Century* explains how revolutions in technology and warfare and the rise of toxic ideologies of conquest made Eurasia the center of twentieth-century geopolitics with pressing implications for the struggles that will define the twenty-first.

Mike Nichols and the Cinema of Transformation J.W. Whitehead, 2014-06-10 Mike Nichols burst onto the American cultural scene in the late 1950s as one half of the comic cabaret team of Nichols and May. He became a Broadway directing sensation, then moved on to Hollywood where his first two films, *Who's Afraid of Virginia Woolf?* (1966) and *The Graduate* (1967) earned a total of 20 Academy Award nominations. Nichols won the 1968 Oscar for Best Director and later joined the rarefied EGOT (Emmy, Grammy, Oscar, Tony) club. He made many other American cinematic classics including *Catch 22* (1970), *Carnal Knowledge* (1971), *Silkwood* (1983), *Working Girl* (1988), *Postcards from the Edge* (1990), and his late masterpieces for HBO, *Wit* (2001) and *Angels in America* (2003). Filmmakers like Steven Spielberg and Steven Soderbergh regard him with reverence. This first full career retrospective study of this protean force in the American arts begins with the roots of his filmmaking in satirical comedy and Broadway theatre and devotes separate chapters to each of his 20 feature films. Nichols' permanent achievements are his critique of the ways in which culture constructs conformity and his tempered optimism about individuals' liberation by transformative awakening.

Ultimately, it reminds us that forests aren't just part of the world; they help keep it turning. Protecting
