

The University of the State of New York
REGENTS HIGH SCHOOL EXAMINATION

EARTH SCIENCE

Friday, June 18, 1993 — 1:15 to 4:15 p.m., only

The last page of the booklet is the answer sheet. Fold the last sheet along the perforations and, slowly and carefully, tear off the answer sheet. Then fill in the heading of your answer sheet.

All of your answers are to be recorded on the separate answer sheet. For each question, decide which of the choices given is the best answer. Then on the answer sheet, in the row of numbers for that question, circle with pencil the number of the choice that you have selected. The sample below is an example of the first step in recording your answers.

SAMPLE: 1 2 3 4

If you wish to change an answer, erase your first penciled circle and then circle with pencil the number of the answer you want. After you have completed the examination and you have decided that all of the circled answers represent your best judgment, signal a proctor and turn in all examination material except your answer sheet. Then and only then, place an X in ink in each penciled circle. Be sure to mark only one answer with an X in ink for each question. No credit will be given for any question with two or more X's marked. The sample below indicates how your final choice should be marked with an X in ink.

SAMPLE: 1 2 3 4

The *Earth Science Reference Tables*, which you may need to answer some questions in this examination, are supplied separately. Be certain you have a copy of these reference tables before you begin the examination.

When you have completed the examination, you must sign the statement printed at the end of the answer sheet, indicating that you had no unlawful knowledge of the questions or answers prior to the examination and that you have neither given nor received assistance in answering any of the questions during the examination. Your answer sheet cannot be accepted if you fail to sign this declaration.

DO NOT OPEN THIS EXAMINATION BOOKLET UNTIL THE SIGNAL IS GIVEN

grasslands lush forests pristine beaches and dunes and copious inland waters all surrounded by a teeming sea These are
probably not the first things you imagine when you think of Long Island but just beyond its highways and housing
developments lies a stunning landscape full of diverse plant and animal life Combining science writing environmental history
and first hand accounts from a longtime resident At the Glacier s Edge offers a unique narrative natural history of Long
Island Betsy McCully tells the story of how the island was formed at the end of the last ice age how its habitats evolved and
how humans in the last few hundred years have radically altered and degraded its landscape Yet as she personally recounts
the habitat losses and species declines she has witnessed over the past few decades she describes the vital efforts that
environmental activists are making to restore and reclaim this land from replanting salt marshes to preserving remaining
grasslands and forests to cleaning up the waters At the Glacier s Edge provides an in depth look at the flora fauna and
geology that make Long Island so special *General Catalog* Iowa State University,1991 **MI1992: The Nevada**
