Big Is Beautiful Robert D. Atkinson, Michael Lind, 2018-03-30 Why small business is not the basis of American prosperity not the foundation of American democracy and not the champion of job creation In this provocative book Robert Atkinson and Michael Lind argue that small business is not as is widely claimed the basis of American prosperity Small business is not responsible for most of the country s job creation and innovation American democracy does not depend on the existence of brave bands of self employed citizens Small businesses are not systematically discriminated against by government policy makers Rather Atkinson and Lind argue small businesses are not the font of jobs because most small businesses fail The only kind of small firm that contributes to technological innovation is the technological start up and its success depends on scaling up The idea that self employed citizens are the foundation of democracy is a relic of Jeffersonian dreams of an agrarian society And governments motivated by a confused mix of populist and free market ideology in fact go out of their way to promote small business Every modern president has sung the praises of small business and every modern president according to Atkinson and Lind has been wrong Pointing to the advantages of scale for job creation productivity innovation and virtually all other economic benefits Atkinson and Lind argue for a size neutral policy approach both in the United States and around the world that would encourage growth rather than enshrine an anachronism If we overthrow the small is beautiful ideology we will be able to recognize large firms as the engines of progress and prosperity that they are

Such a prospect challenges the current status quo in which the region is dominated by the USA and its regional allies and issues in Sino-US strategic relations have raised global awareness of the need to understand this pivotal region better. In addition, the Taiwan issue continues to evoke nationalist sentiments in China and North Korea continues to threaten regional stability. Non-traditional or alternative security issues are also of major importance in the region including natural disasters and epidemics as well as challenges relating to human rights and governance, transnational crime, demographic issues, economics and trade, and regionalism. This Handbook aims to offer an insight into these issues. The volume is divided into two main sections. The first, *International Relations and Security Perspectives*, will focus on the international relations of the region, paying special attention to the key state players. The chapter contributions will examine the security perspectives and foreign and defence policies of these states as well as key bilateral relationships. The second section will examine key *Regional Non-traditional Security Issues* including globalization, transnational health challenges, population growth and the environment.
