Chand,2020-03-10 Every one of us gets anywhere in life due to three things someone observes us forms an opinion about us and decides to give us an opportunity or not Likewise we do the same thing with others People have played this essential role in our lives and we play it in the lives of those around us and no matter how skilled we ve become we can play it even better The sequence applies in business the church marriages parenting and friendships We often assess

others in the blink of an eye We instinctively notice the look on someone's face the tone of voice or the body language that's consistent or different from the words being spoken We react to our observation but we seldom stop to analyze before we respond it just happens and it happens immediately we observe and have an opinion and based on what we've determined in that second we either give the person an opportunity to engage with us or we close the door and remain guarded

**The Sequence to Success Three O's That Will Take You Anywhere in Life** is a leadership book but it's not limited to corporate presidents CEOs or lead pastors it's for everyone who has a position of influence in another person's life and that includes all of us In this book Sam Chand brings our subconscious assumptions into the light With more insight and confidence you'll make better decisions to advance the people around you or perhaps show them the door These principles also help you become more conscious that people are observing you and forming opinions about you that will open or close doors of opportunity
