REALISING SOUND AND VISION

The latest version of the Halo, a collaboration between HARMAN and Lotus, is a single channel system that delivers superior performance in terms of sound and vision. It is designed to provide a driving experience that is both immersive and engaging, allowing the driver to enjoy the full range of sound and vision available in the car.

The new Halo system uses a combination of high-quality speakers and a powerful amplifier to deliver a sound that is both clear and powerful. It also features a video display that provides a clear view of the road ahead, allowing the driver to stay alert and focused at all times.

The new Halo system is designed to be used in a variety of environments, from the quiet of a suburban street to the roar of a Formula 1 race track. It is a versatile system that can be adapted to suit any driver's needs, providing a driving experience that is both enjoyable and safe.

SIMULATED REALITY

The car has a simulated reality system that allows the driver to experience a virtual driving environment. This system uses a combination of sensors and software to create a realistic driving experience, allowing the driver to feel the car's acceleration, deceleration, and steering in a way that is both immersive and engaging.

The driver can also use the system to simulate a variety of driving scenarios, from a simple city drive to a high-speed race. This allows the driver to practice their driving skills in a safe and controlled environment, helping them to become a more confident and skilled driver.

The Halo system effectively allows the driver to select the appropriate level of realism when driving, providing a driving experience that is both enjoyable and safe. It is a versatile system that can be adapted to suit any driver's needs, providing a driving experience that is both enjoyable and safe.
