Love Means Family Farm Series Book English Edition:

A Literary Field Guide to Southern Appalachia Rose McLarney, Laura-Gray Street, L. L. Gaddy, 2019-10-15 Getting acquainted with local flora and fauna is the perfect way to begin to understand the wonder of nature. The natural environment of Southern Appalachia, with habitats that span the Blue Ridge to the Cumberland Plateau, is one of the most biodiverse on earth. *A Literary Field Guide to Southern Appalachia*, a hybrid literary and natural history anthology, showcases sixty of the many species indigenous to the region. Ecologically, culturally, and artistically, Southern Appalachia is rich in paradox and stereotype-defying complexity. Its species range from the iconic and inveterate, such as the speckled trout, pileated woodpecker, copperhead, and black bear, to the elusive and endangered, such as the American chestnut, Carolina gorge moss, chucky madtom, and lampshade spider. The anthology brings together art and science to help the reader experience this immense ecological wealth. Stunning images by seven Southern Appalachian artists and conversationally written natural history information complement contemporary poems from writers such as Ellen Bryant Voigt, Wendell Berry, Janisse Ray, Sean Hill, Rebecca Gayle Howell, Deborah A. Miranda, Ron Rash, and Mary Oliver. Their insights illuminate the wonders of the mountain South, fostering intimate connections. The guide is an invitation to get to know Appalachia in the broadest, most poetic sense.

Eat Everything Dawn Harris Sherling, 2023-05-02 Discover the surprising reason restrictive diets don't work and a practical science-based guide to reclaim your health through the power of real food. Carbs aren't causing your weight gain. Dairy may not be the reason for your upset stomach. And your liver isn't fatty because of the occasional hamburger. It's time to enjoy eating everything again and to reclaim our health along the way. *Eat Everything* offers a better alternative to complicated, minimally effective, and highly restrictive diets. Physician Dawn Harris Sherling lays out compelling new evidence implicating food additives as the real culprits behind diet-related diseases and shares simple, actionable advice to heal. We're constantly told to fear carbs, gluten, and dairy, and we turn to strict diets to solve our health problems. Yet Americans still have one of the highest rates of obesity and diabetes in the world, and millions suffer from digestive ailments like irritable bowel syndrome (IBS). Digging into emerging research, Dr. Sherling realized it's not the foods but the food additives, especially emulsifiers, that are at the root of our problems. Our bodies can't digest them, but they feed our microbiomes, and they're everywhere in the ultra-processed foods that make up about half of our daily diets. In this refreshing and accessible guide, readers will learn how to lose weight without a restrictive diet, why so many popular ultra-processed foods are actively harmful to our bodies, how to navigate eating at restaurants for any meal or occasion, tips for filling our grocery bags with real food, why avoiding food additives is beneficial for our bodies and minds, how to embrace healthful cooking at home with 25 delicious recipes. Dr. Sherling lays out the research on food additives and offers a straightforward guide to eating just about everything, yes, even bread, pasta, and ice cream, without pain, worry, or guilt. This isn't just another restrictive diet in disguise; it's a call to rediscover our love of real food.

Industrial Agriculture in Iowa E. Paul Durrenberger, 2021-11-15 In *The Dawn of Industrial Agriculture in Iowa* E Paul Durrenberger recounts the transformation of Iowa's family farms into today's agricultural industry through the lens of the lives and writings of Iowa novelist Paul Corey and poet Ruth Lechlitner This anthropological biography analyzes Corey's fiction Lechlitner's poetry and their professional and personal correspondence to offer a new perspective on an era 1925-1947 that saw the collapse and remaking of capitalism in the United States the rise of communism in the Soviet Union the rise and defeat of fascism around the world and the creation of a continuous warfare state in America Durrenberger tells the story that Corey aimed to record and preserve of the industrialization of Iowa's agriculture and the death of its family farms He analyzes Corey's regionalist focus on Iowa farming and regionalism's contemporaneous association in Europe with rising fascism He explores Corey's adoption of naturalism evident in his resistance to heroes and villains to plot structure and resolution and to moral judgment as well as his ethnographic tendency to focus on groups rather than individuals An unusual and wide-ranging study *The Dawn of Industrial Agriculture in Iowa* offers important insight into the relationships among fiction individual lives and anthropological practice as well as into a pivotal period in American history

Childhood on the Farm Pamela Riney-Kehrberg, 2023-01-13 As the United States transformed itself from an agricultural to an industrial nation thousands of young people left farm homes for life in the big city But even by 1920 the nation's heartland remained predominantly rural and most children in the region were still raised on farms Pamela Riney Kehrberg retells their stories offering glimpses both nostalgic and realistic of a bygone era As Riney Kehrberg shows the experiences of most farm children continued to reflect the traditions of family life and labor albeit in an age when middle class urban Americans were beginning to redefine childhood as a time reserved for education and play She draws upon a wealth of primary sources not only memoirs and diaries but also census data to create a vivid portrait of midwestern farm childhood from the early post Civil War period through the Progressive Era growing pains of industrialization Those personal accounts resurrect the essential experience of children's work play education family relations and coming of age from their own perspectives Steering a middle path between the myth of wholesome farm life and the reality of work that was often extremely dangerous Riney Kehrberg shows both the best and the worst that a rural upbringing had to offer midwestern youth a time before mechanization forever changed the rural scene and radio broke the spell of isolation Down on the farm truancy was not uncommon and chores were shared across genders Yet farm children managed to indulge in inventive play much of it homemade to supplement store bought toys and to get through the long spells between circuses Filled with insightful personal stories and graced with dozens of highly evocative period photos *Childhood on the Farm* is the only general history of midwestern farm children to use narratives written by the children themselves giving a fresh voice to these forgotten years There was a way of life that was disappearing even as they lived it and this book offers new insight into why even if many rural youngsters became urban and suburban adults they always maintained some affection for the farm
