Following a questionable logic that sees education as a means to economic ends efforts to reform education have focused on
keeping the US from slipping in international economic competition Relying on testing as a standard in the end we may have
decreased our human potential and become less competitive Our system has gotten worse at its core in its philosophical
tenets and in its ultimate effects by placing unwonted pressure on our youth and in stifling their creativity While this goes
back decades Respect for Teachers takes its title from a phrase perhaps a codeword in President s 2011 State of the Union

misrepresentation of research to the promotion of new economic models in education it suggests that the Obama
administration may be without quite realizing it setting the stage for rapid privatization of the public system As this
endangers the egalitarian basis of democracy it also reminds us that schooling is big business many trillions of dollars world
