teaching pedagogy across all subjects are discussed but this book gets to the heart of the unique nature of this subject From building confidence to developing problem solving skills and mathematical literacy this book considers what the keys to success are in learning and hence teaching mathematics There are also chapters on dealing with pressure excelling in observations finding the right job and succeeding at interview Throughout the book there is a great selection of ready to use activities strategies and techniques which will help put you on the fast track to success in the classroom With a strong emphasis on sparking students interest and enthusiasm in mathematics this book is your essential guide as you start your exciting and rewarding career as an outstanding mathematics teacher *Edexcel GCSE Modular Mathematics Examples and Practice*, 2002 Offering students support for the Edexcel GCSE modular specification this book provides an easy to follow course structure extra practice questions and revision exercises tailored to each module Page numbers for the Edexcel GCSE mathematics student books are given for reference More Maths for Mums and Dads Mike Askew, Rob

Eastaway, 2013-02-21 A brilliant guide for parents through the troubled waters of GCSE maths and to help you to help your teenager to feel confident and even enjoy it especially when studying at home In their first bestselling book Maths for Mums and Dads Rob Eastaway and Mike Askew helped you and your child make sense of the new methods and topics covered in primary school maths But as your child embarks on secondary school two new issues arise First in the build up to GCSE school children begin to do maths that you probably have never encountered before or if you have you never really got it in the first place and have long since forgotten Factorising Finding the locus Solving for x Probability distributions What do these even mean More Maths for Mums and Dads gives you all the ammunition to help you to help your teenager get to grips with and feel more confident about and hopefully even enjoy GCSE maths It covers in straightforward and easy to follow terms the maths your child will encounter in the build up to GCSE in many cases gives practical and fun examples of where the maths crops up in the real world In addition the authors introduce the notion of estimation and coin a new term Zequals Using the Zequals method will help develop your teenager's feel for numbers which in turn could transform their experience and enjoyment of everyday maths Maths Friend Chris Robinson, 2014-10-28 The entire focus of Maths Friend is to help students improve their grade at GCSE Author Chris Robinson can't promise that his guide will turn you into a maths genius but what he knows it will do is help students make the most of their talents Maths Friend does not pretend that maths is fun I know from tutoring that many students believe maths is just an instrument of torture invented by schools and by examiners admits Chris Maths Friend fills in gaps left by the textbook and the revision guide and at times gives a different way of looking at things than the one normally given in class Much of the book is directed to answering exam questions Chris shows how the examiner takes the maths you learn and twists it around to make it look unusual Stay calm read this book and see through the examiner's tricks We all make silly mistakes especially under exam pressure If there is time checking your work is vital but it's not easy to do properly This book will help the student make those checks The most common errors are laid

out in a spot the blunder section Here extra marks can be gained for no extra maths knowledge and that can make all the difference to the final grade Maths Friend also covers aspects that textbooks do not deal with that won't be found in revision guides or online help and that teachers have not got the time to cover Maths Friend is a must have guide for pupils aged 14-16 studying for their maths GCSE
