Weiner,2013-03-07 MURIEL MCCARTHY This volume originated from a seminar organised by Richard H Popkin in Marsh s Library on July 7 8 1994 It was one of the most stimulating events held in the Library in recent years Although we have hosted many special seminars on such subjects as rare books the Huguenots and Irish church history this was the first time that a seminar was held which was specifically related to the books in our own collection It seems surprising that this type of seminar has never been held before although the reason is obvious Since there is no printed catalogue of the Library scholars are not aware of its contents In fact the collection of books by late seventeenth and early eighteenth century European authors on for example such subjects as biblical criticism political and religious controversy is one of the richest parts of the Library s collections Some years ago we were informed that of the 25 000 books in Marsh s at least 5 000 English books or books printed in England were printed between 1640 and 1700 **The Book of Magic** Brian Copenhaver,2015-11-05 as when iron is drawn to a magnet camphor is sucked into hot air crystal lights up in the Sun sulfur and a volatile liquid are kindled by flame an empty eggshell filled with dew is raised towards the Sun An odd feature of the Bible is that it is full of stories featuring forms of magic and possession from Joseph battling with Pharaoh s wizards to the supernatural actions of Jesus and his disciples As over the following centuries the Christian church attempted to stamp out deviant practices there was a persistent interest in magic that drew strength from this Biblical validation A strange blend of mumbo jumbo fraud and deeply serious study magic was central to the European Renaissance fascinating many of its greatest figures Brian Copenhaver s wonderful anthology will be welcomed by everyone from those with the most casual interest in the magical tradition to anyone drawn to the Renaissance and the tangled arcane roots of the scientific tradition The Mysteries of Kabbalah Lily Cooper,2024-10-22 The Mysteries of Kabbalah Unlocking the Hidden Secrets of the Divine Imagine holding in your hands an ancient key a secret that has traveled through millennia preserved by those bold enough to question the invisible forces that govern reality In The Mysteries of Kabbalah Lily Cooper guides us through a labyrinth of ancient wisdom where each page unlocks a new door to hidden truths and revelations that can transform your perception of yourself and the world This is not just a book it s a map to the deepest mysteries of the universe an invitation to

Industrialization of Intelligence Noah Kennedy, 2018-05-15 Originally published in 1989 The Industrialization of Intelligence is a spirited blend of the principles of social science and computer technology Critically praised in the United States and England by leading lights both literary and technological it develops an original and provocative model of the interplay between computer systems and social systems Noah Kennedy has composed a compelling story from key episodes in the development of the computer and coupled it with a probing analysis of the true role of automation in modern society The result firmly plants computer technology in the soil of western culture and denies the shrill claims that the information age represents a sudden break with the historical past He starts with biographical vignettes from the lives of five pivotal thinkers weaving their crucial insights into the larger fabric of contemporary and future society He then gives a provocative forecast of the role of artificial intelligence in future society and examines the probable impact of new computer technologies on employment and on the relationships between nations The result is a reasoned understanding of our imminent future through a thoughtful analysis of our historical past
