Preface

In the high latitudes of Finland, in the parching heat of Africa, hence, under the most different conditions, the MZ moto-cycles run to the satisfaction of their owners.

To ensure that the vehicles remain in perfect working order and reliable in service after a long period of operation, involving a certain amount of wear, we issue this Repair Manual to give the necessary instructions to our MZ-Workshops at home and abroad.

Repair work is a matter of confidence in several respects:

The safety of the driver depends on the reliability and workmanship of the mechanic.

The finding of the actual cause of the trouble ensures that no material is wasted and labour costs are restricted to a minimum.

From these items, 3 advantages result:

1. No retouching work,
2. short times of inoperation, and
3. low repair costs!

A good workmanship in repairs largely depends on the use of the special tools and means recommended by MZ. We should like to underline that especially self-service workshops and amateur constructors should bear this in mind in order to avoid considerable additional expenditure of labour and material costs.

Our MZ-Workshops may purchase the special tools from the MZ Spare Sales Department - for amateur constructors, there is only the possibility of constructing them with the help of the sketches given in Section [8.2](#).

We hope this Reference Book offers the required information to the staffs of the workshops contracted for servicing our products at home and abroad, and to the friends of MZ motor-cycles throughout the world, and we wish good success to each and all.
