Faithful Faithful 1 Janet Fox:

The Faithful Librarian Garrett B. Trott, 2019-09-06 What do Christianity and librarianship have in common Netherlands Prime Minister and theologian Abraham Kuyper 1837 1920 was among the first in the modern era to attempt to rejoin the dichotomy of sacred vs secular study when he said no single piece of our mental world is to be hermetically sealed off from the rest Over the years a number of publications have followed Kuyper's lead yet little has been written on the subject since Greg A Smith's notable *Christian Librarianship* 2002 Building on Smith's work this volume seeks to bridge the sacred secular divide with an exploration of how Christianity and the gospel are manifested through the profession of librarianship

Confederate Daughters Victoria E. Ott, 2008-02-22 Book Description A Generation at War explores the intersection of gender age and Confederate identity through the lives of teenage daughters from slaveholding secessionist families throughout the South These young women who came of age in a time of secession and war clung tenaciously to the gender ideals that lauded motherhood and marriage as the fulfillment of female duty and the racial order of the slaveholding South that defined their status and afforded them numerous material privileges When differences between the North and South proved irreconcilable southern daughters demonstrated extraordinary agency in protecting their future as wives mothers and slaveholders Centered in the culture of their youth gender and class group they threw their support behind the movement to create a Confederate identity Their loyalty to the nascent nation born out of a conservative movement to uphold the status quo ultimately brought them into new areas of work civic activism and courtship rituals After the war young women drew from their wartime experiences as youths in constructing their own female imagery in the Lost Cause mythology that stood apart from the typical older maternal figure What emerges from their experiences is the creation of a transformative female identity that bridged the cultural gap between the antebellum and postbellum periods paving the way for the emergence of a new understanding of southern womanhood in the New South era A generational approach allows readers to take a more in depth look at the transitional nature of wartime and its long term effects on women s self perceptions While many studies of southern women tend to lump teenage daughters with the older generation of women this examination singles them out as a unique group whose experiences made a significant contribution to the new woman in the New South This study therefore will serve as a useful tool to students and teachers of southern women s history providing a new perspective on the female experience and the changing ideas of womanhood that war produces The detailed account of teenage daughters and their wartime activities and relationships will also appeal to a more general readership interested in Civil War history
