The Golden Thirteen Dan Goldberg, 2020-05-19 The inspiring story of the 13 courageous Black men who integrated the U S Navy during World War II leading desegregation efforts across America and anticipating the civil rights movement Featuring previously unpublished material from the U S Navy this little known history of forgotten civil rights heroes uncovers the racism within the military and the fight to serve Through oral histories and original interviews with surviving family members Dan Goldberg brings thirteen forgotten heroes away from the margins of history and into the spotlight He reveals the opposition these men faced the racist pseudo science the regular condescension the repeated epithets the verbal abuse and even violence Despite these immense challenges the Golden Thirteen persisted understanding the power of integration the opportunities for black Americans if they succeeded and the consequences if they failed Until 1942 black men in the Navy could hold jobs only as cleaners and cooks The Navy reluctantly decided to select the first black men to undergo officer training in 1944 after enormous pressure from ordinary citizens and civil rights leaders These men segregated and sworn to secrecy worked harder than they ever had in their lives and ultimately passed their exams with the highest average of any class in Navy history In March 1944 these sailors became officers the first black men to wear the gold stripes Yet even then their fight wasn't over white men refused to salute them refused to eat at their table and refused to accept that black men could be superior to them in rank Still the Golden Thirteen persevered determined to hold their heads high and set an example that would inspire generations to come In the vein of *Hidden Figures* *The Golden Thirteen* reveals the contributions of heroes who were previously lost to history

Patent Office,1963 Henry Clay Frick and the Golden Age of Coal and Coke, 1870-1920 Cassandra Vivian,2020-04-23 Once the beehive coke oven was perfected in Fayette County Pennsylvania the coal and coke industry began to flourish and supply other fledgling industries with the fuel they needed to succeed The thrust of this growth came from Henry Clay Frick who opened his first coal mines in the Morgan Valley of Fayette County in 1871 There he helped lead the industry making it the major developmental force in industrial America This book traces the birth and growth of the early coal and coke industry from 1870 to 1920 primarily in Fayette and Westmoreland Counties Beyond Frick's importance to the industry other major topics covered in this history include the lives and struggles of the miners and immigrants who worked in the industry the growth of unions and the many strikes in the region and the attempts to clean the surrounding waterways from the horrific pollution that resulted from industrial development Perhaps the most significant fact is that this book uses primary sources contemporary with the golden age of the coal and coke industry That effort offers an alternative view and helps repair the common portrayal of Frick as corrupt by showing his work as that of an industrial genius Meet the Golden American Kennel Club,2013-02-05 Meet the Golden is
