

SALVIA

WHAT IS IT

Salvia divinorum, commonly known as salvia, is a plant that is native to South and Central America. When it is chewed, smoked, or brewed into a tea it produces psychoactive effects. In its native countries, the plant is used in spiritual ceremonies and practices.

Salvia may be referred to by several different street names, such as:

- Sage of the seers
- Diviner's mint
- Diviner's sage
- Sally-D

SALVIA ABUSE

Salvia usually comes in the form of a green plant, however, it comes in the form of a tea in most spiritual practices. When abused, people will typically smoke or chew the dried leaves.

People who smoke the drug report a short-lived high that is somewhat similar to, but more intense than, **marijuana**.

The effects of salvia may last for up to 20 minutes when smoked

People who swallow salvia, on the other hand, may experience visual hallucinations.

The effects of salvia may last for 1-2 hours if swallowed
