Dislocating the Orient Daniel Foliard,2017-04-13 While the twentieth century s conflicting visions and exploitation of the Middle East are well documented the origins of the concept of the Middle East itself have been largely ignored With *Dislocating the Orient* Daniel Foliard tells the story of how the land was brought into being exploring how maps knowledge and blind ignorance all participated in the construction of this imagined region Foliard vividly illustrates how the British first defined the Middle East as a geopolitical and cartographic region in the nineteenth and early twentieth centuries through their imperial maps Until then the region had never been clearly distinguished from the East or the Orient In the course of their colonial activities however the British began to conceive of the Middle East as a separate and distinct part of the world with consequences that continue to be felt today As they reimagined boundaries the British produced disputed and finally dramatically transformed the geography of the area both culturally and physically over the course of their colonial era Using a wide variety of primary texts and historical maps to show how the idea of the Middle East came into being *Dislocating the Orient* will interest historians of the Middle East the British empire cultural geography and cartography Economic Geography Trevor J. Barnes,Brett Christophers,2018-01-16 This volume in the celebrated *Critical Introductions to Geography* series introduces readers to the vibrant discipline of economic geography The authors provide an original definition of the discipline and they make a strong case for its vital importance in understanding the dynamic interconnections movements and emerging trends shaping our globalized world *Economic Geography* addresses the key theories and methods that form the basis of the discipline and describes its communities of practice and relations to related fields including economics and sociology Numerous illustrative examples explore how economic geographers examine the world and how and why the discipline takes the forms it does demonstrating the critical value of economic geography to making sense of globalization uneven development money and finance urbanization environmental change and industrial and technological transformation

Malin,2015-05-21 Rising fossil fuel prices and concerns about greenhouse gas emissions are fostering a nuclear power renaissance and a revitalized uranium mining industry across the American West In The Price of Nuclear Power environmental sociologist Stephanie Malin offers an on the ground portrait of several uranium communities caught between the harmful legacy of previous mining booms and the potential promise of new economic development Using this context she examines how shifting notions of environmental justice inspire divergent views about nuclear power s sustainability and equally divisive forms of social activism Drawing on extensive fieldwork conducted in rural isolated towns such as Monticello Utah and Nucla and Naturita Colorado as well as in upscale communities like Telluride Colorado and incorporating interviews with community leaders environmental activists radiation regulators and mining executives Malin uncovers a fundamental paradox of the nuclear renaissance the communities most hurt by uranium s legacy such as high rates of cancers respiratory ailments and reproductive disorders were actually quick to support industry renewal She shows that

many impoverished communities support mining not only because of the employment opportunities but also out of a personal identification with uranium a sense of patriotism and new notions of environmentalism But other communities such as Telluride have become sites of resistance skeptical of industry and government promises of safe mining fearing that regulatory enforcement won't be strong enough Indeed Malin shows that the nuclear renaissance has exacerbated social divisions across the Colorado Plateau threatening social cohesion Malin further illustrates ways in which renewed uranium production is not a socially sustainable form of energy development for rural communities as it is utterly dependent on unstable global markets The Price of Nuclear Power is an insightful portrait of the local impact of the nuclear renaissance and the social and environmental tensions inherent in the rebirth of uranium mining

The Poverty of Television

Jonathan Corpus Ong, 2015-05-15 Based on a 20 month ethnographic study of television and audiences in class divided Philippines this is the first book to take a bottom up approach in considering how people respond to images and narratives of suffering and poverty on television The book aims to contribute to the broader project of de Westernizing media studies and explore the tension between ethical prescription and anthropological description in the social sciences and humanities Winner of the 2016 Philippine Social Science Council Excellence in Research Award

Matching Visibility and

Performance Nian Cai Liu, Ying Cheng, Qi Wang, 2016-11-25 The concept of world class universities WCU has increasingly gained popularity in the past two decades around the world WCU are regarded as cornerstone institutions of any academic system and imperative to develop a nation's competitiveness in the global knowledge economy The development of such universities is high on the policy agenda of various stakeholders worldwide in both developed and developing countries and regions and at both national and institutional levels to promote their global competitiveness Visibility and performance are among the most watched concepts in relation to develop WCUs but remain complicated in nature and with no agreed upon definitions Existing literature have focused on how to raise universities prestige status impact and rankings in the global and regional arena on the one hand and how to enhance universities quality efficiency effectiveness and academic output on the other However whether visibility is a legitimate indicator of performance or vice versa is yet to be answered Matching Visibility and Performance A Standing Challenge for World Class Universities provides insights of developing academic excellence from global national and institutional perspectives and intends to stimulate discussion on how universities can be globally visible and locally engaged and how visibility and performance can be integrated and balanced in practice

Ageing Issues in India Mala Kapur Shankardass, 2021-12-01 This book explores various practices and policies related to ageing issues in India It addresses ageing concerns from a theoretical and empirical viewpoint with in depth analyses of existential dimensions of ageing It provides deep insights into ageing in India by discussing demographics related to health and social differentials gender concerns retirement problems epidemiological transition taking place in the country with rising problem of dementia and mental health problems It consists of 23 chapters written by various established as well as

upcoming scholars in the field The authors cover a broad range of topics with regard to provisions for institutional care geriatric practice and emerging issues of elder abuse The book will appeal to professionals and to lay people getting interested in ageing India from a social health gender economic psychological and emotional aspects **Communication in Global Jihad** Jonathan Matusitz,2020-11-25 This book conceptually examines the role of communication in global jihad from multiple perspectives The main premise is that communication is so vital to the global jihadist movement today that jihadists will use any communicative tool tactic or approach to impact or transform people and the public at large The author explores how and why the benefits of communication are a huge boon to jihadist operations with jihadists communicating their ideological programs to develop a strong base for undertaking terrorist violence The use of various information and communication systems and platforms by jihadists exemplifies the most recent progress in the relationship between terrorism media and the new information environment For jihadist organizations like ISIS and Al Qaeda recruiting new volunteers for the Caliphate who are willing to sacrifice their lives for the cause is a top priority Based on various conceptual analyses case studies and theoretical applications this book explores the communicative tools tactics and approaches used for this recruitment including narratives propaganda mainstream media social media new information and communication technologies the jihadisphere visual imagery media framing globalization financing networks crime jihad nexuses group communication radicalization social movements fatwas martyrdom videos pop jihad and jihadist nasheeds This book will be of great interest to students and scholars of communication studies political science terrorism and international security Islamic studies and cultural studies *The South Asian Energy Corridor* Amritanshu Shukla,Atul Shama,Saurabh Mishra,2024-08-23 This new volume offers up to date coverage of the energy scenario in South Asia showcasing the major challenges being faced in the South Asian Energy Corridor in the context of energy security versus clean energy The volume explores the role of diversifying supplies for the future to gain energy security that can lead to mapping joint ventures among conventional rival countries especially due to the rapidly emerging economies of this region India China Japan and Pakistan by their location and demography occupy a major role in this corridor The book examines the role of major technologies vis a vis dominant energy players in South Asia to put checks and balances on energy security along with clean energy resources hand in hand The economics along with the geopolitics of various pipelines ports and regional strategic relations strongly favor developing an energy bond among nations with both technologies as well as markets available within the same region The book strongly suggests increasing strategic energy cooperation between the major energy players to maximize mutual interest and reduce carbon emission for larger interests The volume first provides an overview of the South Asia Energy Corridor It then goes on to look at the energy scenarios in the countries of the region considering India s need for energy security and for clean energy initiatives The topics include advances in renewable energy in the region new fossil fuel reserves exploration in South Asia advances in wind and solar energy in the region and so much more
