**Kong, Godzilla and the Living Earth** Allen A. Debus, 2022-06-24 During the 2010s science fiction s immortal adversaries King Kong and Godzilla representing our conflicts per Carl Sagan s dream dragons analogy made comebacks in American cinema The blockbuster Kaiju resurged onto the screen depicting these protectors of an Earth plagued by mankind s hubris and folly With Earth s future hanging in the balance their climactic 2021 staging settled a score between the two giant monsters resolving Toho s classic 1963 film King Kong vs Godzilla As formidable creatures emerging from Time s Tomb on Mother Earth metaphorical Kong and Godzilla are considered here in light of new millennial environmentalism s stark reality This

book nostalgic in tone explores the meaning of Kong and Godzilla as planetary saviors titanic protectors of a theoretical living Earth Gaia defending the globe from a prehistoric plague of adversaries      Managing Information in Complex Organizations Kevin C. Desouza,Tobin Hensgen,2015-04-08 This seminal work presents an effective design for processing information through five stages from data to actionable knowledge in order to influence behavior within organizations The authors incorporate such concepts as evolution semiotics entropy complexity emergence crisis and chaos theory in an intriguing alternative to crisis management that can be applied to any organization Their model shows how to evaluate and share information to enable the organization to avoid disaster rather than simply respond to it Additionally the text presents the first attempt at a multi disciplinary view of information processing in organizations by tying associated disciplines to their respective impacts on the information process Illustrations used in the text include an overlay that demonstrates how the non use of information between agencies contributed to the 9 11 disaster and an appendix addresses Organizing for Cyberterrorism      **Air Force journal of logistics: vol26\_no2** ,      Behaviour for Learning Simon Ellis,Janet Tod,2018-07-04 Behaviour for Learning offers teachers a clear conceptual framework for making sense of the many behaviour management strategies on offer allowing them to make a critical assessment of their appropriateness and effectiveness in the classroom and assisting them to promote closer links between behaviour and learning Now in a fully updated second edition the book focuses on how teachers can provide a safe and secure setting where positive relationships are fostered placing increased emphasis on learning behaviours that contribute to pupils cognitive social and emotional development The book is full of practical approaches that can help teachers support pupils to achieve relate to others and develop behaviours that characterise self esteem confidence and resilience It includes chapters covering relationship with the curriculum relationship with self and relationship with others whole school approaches and the school behaviour policy reframing special educational needs dealing with more challenging behaviour transitions This second edition also includes an updated emphasis on the links between mental health behaviour and relationships in schools and reflects Department for Education advice for school staff changes to the National Curriculum and the new SEND Code of Practice Through the application of the Behaviour for Learning framework the book encourages teachers to address the needs of pupils who exhibit behavioural difficulties whilst still pursuing excellence in teaching and learning for all pupils It is a compelling and essential read for all trainees and practising teachers CPD coordinators and other professionals working with children in schools      Archaeology Mark Q. Sutton,2021-03-30 Archaeology The Science of the Human Past provides students with a thorough understanding of what archaeology is and how it operates and familiarizes them with fundamental archaeological concepts and methods This volume introduces the basic components of archaeology including sites artifacts ecofacts remote sensing and excavation It discusses how archaeologists obtain and classify information and how they analyze this information to formulate and test models of what happened in the past Cultural resource management and the laws and regulations that

deal with archaeology around the world are described Archaeology is placed in the context of contemporary issues from environmental problems to issues affecting Indigenous populations The sixth edition has been updated and simplified to create a more streamlined volume to meet the needs of the students and teachers for whom it is designed reflecting the latest developments in archaeological techniques and approaches Allowing students to understand the theoretical and scientific aspects of archaeology and how various archaeological perspectives and techniques help us understand how and what we know about the past Archaeology The Science of the Human Past is an ideal introduction to archaeology

*Ecodynamics* C. A. Brebbia, 2012 This book contains a series of outstanding contributions on ecodynamics that appeared in limited editions before the emergence of the International Journal of Design Nature and Ecodynamics which has now become the primary focus for this area of research The aim of ecodynamics is to relate ecosystems to evolutionary thermodynamics which can lead to appropriate solutions for sustainable development The contributions published in this volume relate to all aspects of ecosystems and sustainable development ranging from physical sciences to economics and epistemology The world of ecosystems has been dominated by the towering personality of Ilya Prigogine to whom this volume is dedicated The first article is an extract from his autobiography written shortly before he died Prigogine's ideas are directly reflected in many of the contributions in this volume He helped set up numerous research groups all around the world including that at Siena University headed by the late Enzo Tiezzi He also influenced the work of Sven Jorgensen Bernard Patten Robert Ulanowicz Simone Bastianoni Nadia Marchettini Ricardo Pulselli T S Chon to name just a few amongst the many authors contributing to this volume This compilation of influential papers currently unavailable in the open literature will make an important contribution to the field of ecodynamics
