The Bookman ,1906 *Journal of Education* ,1894 *Phenomenological Inquiry in Psychology* Ron Valle,2013-11-11

This fine new book the third in a series brings psychologists up to date on the advances of phenomenological research methods in illuminating the nature of human awareness and experiences In the more congenial and welcoming intellectual climate of the 1990s the phenomenological methods have moved to the forefront of discourse on research methods that support and advocate an expanding view of science In Valle and King 1978 phenomenological methods were presented as alternatives to behavioral methods In Valle and Halling 1989 phenomenological methods were advanced to perspectives in psychology This new volume is even less cautious indeed bolder in relation to conventional methods and epistemologies By now people knowledgeable about psychology and most psychologists have digested the criticisms directed against methods that operationalize quantify and often minimize human behavior In bringing us up to date on the growing power of the phenomenological methods this volume brings welcome coherence and integrity to an increasingly harried science attempting to reenchant itself with meaning and depth an endeavor artfully exemplified by phenomenological inquiries of the last several decades *Questions in Aesthetic Education (RLE Edu K)* H Redfern,2012-05-16 The Question of what aesthetic education is or might be is often a source of incomprehension This book opens up discussion of a complex difficult but highly important topic and offers an introductory survey of the whole area In examining the relationship of the concept of the aesthetic to that of art it challenges the persistent linking by many educationists of aesthetic with creative and the consequent neglect of critical reflection and appreciation **Ontario Library Review and Book-selection Guide** ,1920 [Putin's Propaganda Machine](#) Marcel H. Van Herpen,2015-10-01 Putin's Propaganda Machine examines Russia's information war one of the most striking features of its intervention in Ukraine Marcel H Van Herpen argues that the Kremlin's propaganda offensive is a carefully prepared strategy implemented and tested over the last decade Initially intended as a tool to enhance Russia's soft power it quickly developed into one of the main instruments of Russia's new imperialism reminiscent of the height of the Cold War The author describes a multifaceted strategy that makes use of diverse instruments including mimicking Western public diplomacy initiatives hiring Western public relations firms setting up front organizations buying Western media outlets financing political parties organizing a worldwide propaganda offensive through the Kremlin's cable network RT and publishing paid supplements in leading Western newspapers In this information war key roles are assigned to the Russian diaspora and the Russian Orthodox Church the latter focused on spreading so called traditional values and attacking universal human rights and Western democracy in international fora Van Herpen demonstrates that the Kremlin's propaganda machine not only plays a central role in its hybrid war in Ukraine but also has broader international objectives targeting in particular Europe's two leading countries France and Germany with the goal of forming a geopolitical triangle consisting of a Moscow Berlin Paris axis intended to roll back the influence of NATO and the United States in Europe

Drawing on years of research Van Herpen shows how the Kremlin has built an array of soft power instruments and transformed them into effective weapons in a new information war with the West A Catalogue of Books for the Library.
