Gerstein, 2013-08-21 First published in 2000 Experiential family counseling is an action oriented approach to family therapy Through the use of structured games and physical and intellectual challenges

many clinicians find that they are able to gain insight into the behaviors and responses that perpetuate a family's problems. While traditional treatment methods often become bogged down in verbal sparring or blame placing between family members, experiential counseling calls for families to work together to succeed in overcoming obstacles that are set before them. And because many experiential activities can be designed as metaphors for a family's individual problems, counselors using this treatment method are given an excellent opportunity to help families practice actual solutions that can be used in their daily interactions and experiences. In *Sticking Together*, Jackie Gerstein has given therapists and family counselors a wonderful tool for introducing experiential counseling into their own practices. In addition to a thoughtful overview of the general uses and benefits of this unique technique, she also provides practical guidelines for developing experiential family counseling sessions. Key features include: A core section of experiential activities, games, and exercises for family therapy; Cautions that should be observed when using these activities with certain populations; Detailed processing questions with each exercise that can help families to interpret the results of experiential activities; Suggestions to encourage family goal setting; A discussion on the need for ongoing assessment during the course of experiential therapy; Samples of important documents necessary in experiential therapy programs, including performance agreements and informed consent forms. With an easy-to-use format, *Sticking Together* offers readers an extensive selection of family building initiatives that promise to introduce fun into the vocabulary of family therapy. **Activities to Foster Communication** Alesia Holewinski, 2010-05-15

103 Group Activities and Treatment Ideas & Practical Strategies Judith A. Belmont, 2006 This book assists in breaking through treatment resistance and defensiveness. Dozens of reproducible handouts, experiential activities, exercises, self-discovery tools, and more are included. *Awareness in Action* Phylis J. Philipson, Juneau Mahan Gary, 2015-07-30 *Awareness in Action* is a user-friendly text workbook designed for undergraduate and graduate students pursuing mental health degrees, e.g., counseling psychology and social work, and other human relations professions, e.g., medicine, nursing, public administration, and business. It has been used successfully by trainers for professional development seminars in human relations. *Awareness in Action* uses group-based experiential exercises to enhance self-awareness in professional and personal relationships in order to improve the quality of both types of relationships. It is grounded in the research of cognitive behavior therapy (CBT), solution-focused therapy (SFT), group work theory, and wellness theory, widely used and accepted by mental health clinicians.

The Classroom of Choice Jonathan C. Erwin, 2004-05-15 Outstanding a great guide for teachers who want to succeed with every student they teach. William Glasser: Teachers everywhere face the daily challenge of engaging students whose knowledge, skills, needs, and temperaments vary greatly. How does a teacher establish a learning environment that supports the class as a whole while meeting the particular needs of individual students? Teacher Jonathan C. Erwin believes the answer lies in offering real opportunities to students rather than throwing up the obstacles inherent in traditional discipline and motivation techniques. At the heart of his approach are the five basic human needs of William Glasser's Choice Theory.

survival and security love and belonging power through cooperation and competency freedom and fun By understanding and attending to these needs teachers can customize and manage a classroom environment where students learn to motivate and monitor themselves Drawing on theories and practices from experts in a variety of learning techniques Erwin explores each of the five basic needs to create nearly 200 adaptable strategies for teaching and classroom management at any grade level Readers will find dozens of ideas for helping students make positive changes including Improving their work habits Connecting curriculum with individual interests Opening lines of communication with teachers and other students Boosting self worth through accomplishment and Supporting their classmates in cooperative work Erwin ties everything together in a unit guide that allows teachers to develop a classroom profile based on the needs of individual students The guide can be used with any district planning approach or curriculum For teachers seeking a win win situation in managing their classrooms The Classroom of Choice is an excellent aid in creating a learning environment in which students and teachers approach each day with energy and enthusiasm Note This product listing is for the Adobe Acrobat PDF version of the book
