Learn to use InfoPath's robust set of tools to capture information that's locked away in document based forms. Quickly create forms and data gathering applications that use XML to separate form and content. This raw information can then be integrated into back end systems providing an end to end solution for data capture in the enterprise. *Enabling Health and Healthcare Through ICT* Karen L. Courtney, Omid Shabestari, Alex Mu-Hsing Kuo, 2013 For many people in both developing and developed countries universal healthcare is still not the norm. Socio economic status and geographical restrictions have proved to be major barriers to accessible care. The use of information and communication technologies ICT is growing rapidly internationally as the need to provide more efficient and cost effective care becomes increasingly urgent. Improving the health of a nation begins with the individual and recent developments in genomics and mobile networked information technologies have regenerated interest in individualizing healthcare.
