

[Abortion Research Paper](#)

Abstract The topic covered in this research paper is abortion. This paper looks into the history of abortion, the pro-life view of abortion and the pro-choice view of abortion. Under history of abortion the information included is the time line of significant events of abortion such as becoming legal, also different ways in ancient times women would try to use abortions. The upgrading of technology making abortion safer and even if abortion was illegal women would still find a way to abort a baby are also covered under the history of abortion. Under pro-life choice for abortion looks into abortion murder, the rights of human and the rights of the unborn and that a women doesn't have a right to terminate her own fetus. Under pro-choice [...show more content...](#) Pro-choice is for female activists and their beliefs on women taking control of their own body and making their own decisions. The other side of the debate in abortion is pro-life, which is defined as murder, killing an innocent baby which has no say. It has been reported that anti-abortionists relate having an abortion to murdering someone. They believe that a murder is intentional and so is an abortion because you are planning to abort the baby (Currie, 2000,103). Results have shown that people who advocate for Pro-Life primarily are Christian or Catholic members because of the Bible. In the Bible, it does not say directly that abortion is not permitted it makes references to make it clear that God felt very strong about the fact that a fetus or embryo is still considered a human. It suggests that God creates the baby's life well its in the womb and it also says that the same penalty should be giving to someone who causes the death of the child in the womb as to someone who commits murder (Frechet, 2009). As you can see there is two very strong definitive sides to the debate of abortion, both having strong arguments. History Abortion has been known since the ancient times. Women in all cultures have used it as a method of birth control, regardless of whether the culture officially permitted it. Over many centuries women wishing to terminate a pregnancy have drunken poisonous liquids, robbed certain herbs on their stomachs, or even attempted to pierce
