4. Each regional office of the Jamaica Food Crop Marketing Agency uses a system of hardware, software and communication channels that connects hardware devices to provide its computing services. Information is collected at the regional offices and at the end of the day it is transferred to a main-frame computer at the head office in Kingston. At night, this main-frame at head office collects the information and transfers it to the regional offices. The communication system is complex since each network at the regional offices uses different rules establish to govern the way data is transmitted in the particular network. Apart from providing up-to-date information to users through its regional offices, the system allows users access to the information at their own homes. However, to utilize this facility user must subscribe to its special service which allows them to send and receive messages to/from other users. The cost of this facility is affordable to the average home-users since subscription fee is small and the only other capital cost is the price of a device which converts digital signals into analogue signals and vice versa.

State the proper **technical terms** for EACH of the FOUR underline phrases in the above passage.
