Teacher Journeys Rita Gilbert Greer EdD, 2020-04-24 Where you live does not define who you are or who you can be Those were the words of a wise woman who did not know that she was a teacher or that her words would be remembered and passed on to future generations long after she died However this wise woman did know that to make her belief come to fruition education was the key For many African Americans who travelled life's highway during the twentieth century caring teachers were their guiding star their map their GPS and their light through the tunnel Teachers gave students confidence hope determination knowledge and a feeling of yes you can In this book the author rejects the idea that anybody can teach and provides clear distinct criteria for anyone thinking about teaching as a career The stories she shares also serve as a thank you to all of America's teachers Discover how African American teachers have inspired students to succeed and pay it forward with the remarkable stories in Teacher Journeys We must have outstanding teachers in today's schools Expectations are key to student performance and teacher success If teachers have realistic expectations our kids will try to live up to them No child wants to be a failure and no good teacher wants their students to fail Daisy R Wright Teacher Without knowledge and skills opportunities cease The burden of developing and imparting the knowledge and skills has been placed squarely upon teachers regardless of how unfair and lopsided it seems If anyone is thinking about becoming a teacher he or she must understand that this profession makes the biggest imprint of any occupation in society Verna Cahoon Principal
