Economics Of Intercollegiate Sports, The (Second Edition) John C Leadley, Randy R Grant, Zenon X

Zygmunt, 2014-10-21 Why do universities place so much emphasis on athletics? Are the salaries of head coaches excessive? Should student athletes be paid? Why is there so much cheating in college sports? Should athletic departments be subsidized by the university? Does Title IX unfairly discriminate against men's sports? This textbook is designed to help teach students about the business of college sports, particularly the big money sports of football and basketball, allowing them to answer these and other important questions. The book provides undergraduate students with the information and economic tools to analyze the behavior of the NCAA athletic conferences and individual colleges and universities in the market for college sports. Specific topics include the markets for athletes and coaches, the importance of athletics for colleges and universities, the finances of athletic departments, the influence of the media in commercializing college sports, issues of race and gender, and the possibilities for reforming college sports.

Credit Rating Governance Ahmed Naciri, 2015-01-30 Credit rating agencies play an essential role in the modern financial system and are relied on by creditors and investors on the market. In the recent financial crisis, their power and reliability were often questioned, yet a simple rating downgrade could threaten to bankrupt a whole country. This book examines the governance of credit rating agencies as expressed by their ability to fairly, ethically, and consistently assign higher rates to issuers having lesser default risks. However, factors such as the drive for increased revenue and market share, the inadequate business model, the inadequate methodology of assessing risk, opacity, and inadequate internal monitoring have all been identified as critical governance failures for credit agencies. This book explores these issues and proposes some potential solutions and improvements. This will be of interest to researchers and advanced students of corporate finance, financial economics, risk management, investment management, and banking.

Race, Economics, and the Politics of Educational Change John M. Amis,Paul M. Wright,2024-01-12 The 2010 national midterm elections produced Republican majorities in Tennessee for the first time since Reconstruction In the wake of that election leaders of the Shelby County Schools SCS school district began legislative maneuvering to advance a long cherished goal granting their schools special school district status a move that would permanently sever the relationship between the SCS and the other school district in the county Memphis City Schools MCS Leaders of MCS realized this action would deprive it of funding from a significant part

of the county's tax base. So they made a stunning move of their own: they renounced the MCS charter. Ironically, under Tennessee law, this action required SCS to take over the running of Memphis's schools. SCS would actually be forced to merge with MCS. Thus began the largest school district consolidation in the history of the United States.

Race, Economics, and the Politics of Educational Change progresses through nine chapters that examine the MCS/SCS merger from a variety of disciplinary perspectives: Historical, sociological, political, legal, institutional, urban planning, media studies, and educational analyses of the consolidation. John M. Amis and Paul M. Wright's volume is a valuable tool for researchers, students, policy makers, and educators alike. The investigations in this work reveal deeply entrenched inequalities that have thwarted education, particularly for poor minority students throughout the region's history. This text presents insight into factors that have shaped not just the school system in Shelby County but similar systems across the United States. A model for other urban areas that face similar challenges, this volume will serve as a significant resource for those seeking to understand the trajectory of large-scale educational transformations.

Independent Schools Yearbook 2012-2013 none, 2013-06-20. The highly respected book of reference sought after by Independent Schools in membership of the Independent Schools Council's Associations: HMC, GSA, The Society of Heads, IAPS, ISA, and COBIS.

Affirmative Action at a Crossroads: Fisher and Forward Edna Chun, Alvin Evans, 2015-05-20. The urgency of developing workable, race-neutral admissions strategies that maximize the benefits of student diversity has increased. This practical guide offers concrete recommendations and strategies for the creation of a campus ecosystem that maximizes the structural, curricular, and interactional benefits of diversity, extensive empirical findings, and a rich research literature. Opportunities for campuses to craft programs, processes, and intervention that maximize student learning outcomes related to diversity and alternative strategies for addressing disadvantage, including the use of socioeconomic status and state-based percent plans. This book provides a comprehensive overview of key issues and strategic approaches that will assist institutions of higher education in fostering demographic diversity and building inclusive and welcoming campus environments. This is the fourth issue of the 41st volume of the Jossey-Bass series *ASHE Higher Education Report*. Each monograph is the definitive analysis of a tough higher education issue based on thorough research of pertinent literature and institutional experiences. Topics are identified by a national survey. Noted practitioners and scholars are then commissioned to write the reports, with experts providing critical reviews of each manuscript before publication.
