

ARM LPC 2148

Introduction

The ASK 16/32-bit ARM7TDMI-S microcontroller Training board is specifically designed to help students to master the required skills in the area of embedded systems. The kit is designed in such way that all the possible features of the microcontroller will be easily used by the students. The kit supports in system programming (ISP) which is done through serial port. ASK Board has new and advance options which will give user the liberty of implementing complex logic used in the design of Embedded Systems. The development experience on the ASK Board will posed an opportunity to excel in the field of Embedded Systems.
