

MGL Avionics EFIS**Lycoming Engine Sender Installation Guide**

This manual is intended to be a Quick Reference for installing certain engine senders on a Lycoming engine.

It should be seen as a supplement to the MGL Avionics EFIS Installation Manual, the RDAC Installation Manual, and the Installation Sheets provided with the UMA Tach Sender, UMA Fuel Pressure Sender, and Floscan and EI Red Cube Flow Senders.

Where shown, Sender setups are correct for the type of sender being shown to be installed, and all setups should be made as shown. However, temperature and pressure parameters are shown for an example Lycoming IO-360 engine, and should just be used as a guideline. Your aircraft/engine manual is the correct reference for all parameters.

Use these sender settings – not these parameters!
