Of Idaho, 1991-06-01 Laboratory Lessons in Physical Geography (Classic Reprint) Lu Lester Everly, 2018-02 Excerpt from Laboratory Lessons in Physical Geography The exercises presented in this manual are intended to be sufficient for a full year s work but they are so written that some may be omitted by classes

that have not time for all without detriment to those remaining It is intended that the pages of questions and directions be bound with the answer papers in the notebook In some exercises where the answers are short blank spaces are left on the printed page that the answers may be written immediately after the questions The loose leaf plan of binding gives Opportunity not only for the omission of exercises not needed but also for the insertion of such other exercises as any teacher may choose to give To the same end and also that the exercises may be taken in the order in which the topics are studied the exercises are not numbered Reference may be made to them by the page numbers at the bottom of the page Pupils should pre serve all their papers and at the end of the course arrange them in order number the pages at the top and write on the Table of Contents sheet pp 191 192 the number name and pages of each exercise The teacher will probably wish to examine and comment on each exercise as soon as it is done The binding margin is a convenient place for marks and also for the pupil's name but the pupil must be careful not to let his writing run into this margin Some of the exercises require heat water and considerable apparatus not always to be had at each pupil s desk It is suggested that such exercises be assigned the day before they are to be done to several pupils who shall have the preparations complete and perform the experiments in the presence of the class All members of the class should then write up the exercise Most of the exercises have questions at the end called Advanced These questions are usually more difficult than those preceding and are intended for the rapid workers who finish the main questions before the majority of the class are through About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www forgottenbooks com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
