Enforce Security In Mpumalanga 2015:

Analysis of South Africa's Wildlife Policies and Laws Didi Wamukoya, Mira Dutschke, 2017-10-18 South Africa has a long history of regulation of wildlife conservation that dates as far back as 1656 when Jan van Riebeeck a Dutch colonial administrator and founder of Cape Town gave instructions to regulate hunting in the Cape. From that time South Africa has had several wildlife and biodiversity conservation policies and laws. After the fall of apartheid the new framework policies and laws on environment and wildlife conservation were enacted to further strengthen wildlife conservation in the country. South Africa is also a party to various international agreements that commit the country to its conservation efforts at an international level. This rapid independent assessment of the law and policy governing wildlife crimes in South Africa reviews the Constitution and the national framework laws focusing on those laws and policies that impose criminal liability for wildlife offences. The assessment then turns to the provinces. Provincial governments have a fairly large degree of legislative and executive jurisdiction over conservations and wildlife management issues including enforcing compliance of criminal wildlife laws. The review sets out the offences and penalties that exist across the myriad of relevant environmental legislation and policy and looks at the power and mandate of the various enforcement bodies. Tourism Safety, Security and Resilience Rami K. Isaac, Shem Wambugu Maingi, Vanessa GB Gowresunkaar, 2024-11-18 This significant volume critically explores the implications of tourism safety and security and how communities in tourism destinations try to be resilient in the face of these impacts. Written by leading scholars this book offers new insight into the conceptual and practical knowledge of community resilience due to tourism security and safety issues. Chapters examine these topics through an integrated community perspective to provide comprehensive consideration of the interconnected facets of a community encompassing social, economic, environmental and cultural dimensions when evaluating and addressing matters pertaining to tourism management, safety, security and resilience. This book is structured around different conceptual, theoretical and practical strategies employed by destinations to foster and sustain community resilience particularly during periods of crises as well as communities in the context of tourism recovery. It examines this across geographical borders and in many different contexts not just locations of tourism or types of tourism such as religious tourism and different types of crises including natural disasters, pandemics and terrorism. This book is an essential reading for all tourism students, researchers and academics as well as for those interested in conflict and crises recovery. **Political Handbook of the World 2015** Tom Lansford, 2015-03-24 The Political Handbook of the World provides timely, thorough and accurate political information with more in-depth coverage of current political controversies than any other reference guide.
