**Peer-to-peer Training Facilitator's Guide** Michele N. Costanza, 2009 The peer to peer P2P training approach involves small groups of people from similar social groupings who are not professional teachers helping each other to learn The P2P approach has great potential for rapidly identifying emerging lessons learned and integrating them into wide reaching Army training The present research identified the instructional principles and best practices for P2P from academia industry and the military supporting effective P2P training and incorporated them into a Soldier friendly facilitator's guide A formative evaluation was conducted with Soldiers using the guide to prepare and conduct group discussions for a face to face group setting and a distributed group setting where Soldiers were linked via video teleconference One group of Soldiers served as facilitators and used the facilitator's guide to prepare and lead discussions with other Soldiers who served as learners Feedback on the guide was mostly positive with Soldiers indicating that the guide provided an appropriate amount of information and a usable format and tools for structuring and fostering group discussions Ongoing efforts to transition P2P methods into Army training are discussed

Facilitator's Guidebook for Use of Mathematics Situations in

Professional Learning Rose Mary Zbiek, Glendon W. Blume, M. Kathleen Heid, 2018-01-01 The depth and breadth of a mathematics teacher's understanding of mathematics matter most as the teacher engages in the daily work of teaching. One of the major challenges to teachers is to be ready to draw on the relevant mathematical ideas from different areas of the school curriculum and from their postsecondary mathematics experiences that can be helpful in explaining ideas to students, making instructional decisions, creating examples, and engaging in other aspects of their daily work. Being mathematically ready and confident requires teachers to engage in ongoing professional learning that helps them to connect mathematics to events like those they live on a daily basis. The purpose of this volume is to provide teachers, teacher educators, and other facilitators of professional learning opportunities with examples of authentic events and tools for discussing those events in professional learning settings. The work shared in *Facilitator's Guidebook for Use of Mathematics Situations in Professional Learning* resulted from a collaborative effort of school mathematics supervisors and university mathematics educators. The collaborators joined their varied experiences as teachers, coaches, supervisors, teacher educators, and researchers to suggest ways to scaffold activities, encourage discussion, and instigate reflection with teacher participants of differing mathematics backgrounds and with varying teaching assignments. Each guide has ideas for engaging and furthering mathematical thought across a range of facilitator and participant mathematics backgrounds and draws on the collaborators' uses of the Situations with in-service and prospective teachers. The events and mathematical ideas connected to each event come from Situations in *Mathematical Understanding for Secondary Teaching: A Framework and Classroom-Based Situations*. A Situation is a description of a classroom-related event and the mathematics related to it. For each of six Situations, school and university collaborators developed a facilitator's guide that presents ideas and options for engaging teachers with the event and the mathematical ideas. The Guidebook also contains suggestions for how teachers and others might develop new Situations based on events from their own classrooms as a form of professional learning. Both teacher educators and school-based facilitators can use this volume to structure sessions and inspire ideas for professional learning activities that are rooted in the daily work of mathematics teachers and students. *The TWI Facilitator's Guide* Donald A. Dinero, 2016-09-19 There are many books available covering the Training Within Industry TWI programs but few include any unique material on adaptation or modification. This dearth of new has caused practitioners to alter the programs without understanding the underlying principles. These changes have made the programs less effective. One must however maintain the principles used in the programs when changing the delivery of the programs to suit the culture. The purpose of *The TWI Facilitator's Guide: How to Use the TWI Programs Successfully* is to prevent the TWI programs from falling into misuse and disuse. This book will explain the main principles of the TWI programs and what they can accomplish but it will also stress what they are not. This book reviews what the programs are and then explains how to use them. It tells why we do certain aspects of each program. When we know why we do something we won't stop doing it for the wrong reason.

*Healing Men's Pain Curriculum, Facilitator's Guide* Dan Griffin, Jonathan De Carlo, 2024-09-10 A 36-hour curriculum designed to help men overcome past trauma and develop the skills they need to live safe and caring lives. *Healing Men's Pain Curriculum* helps male identified participants create a vision of the men they want to be and provides them with the awareness tools and confidence to achieve that vision. Each of the 18 two-hour cofacilitated sessions includes activities, exercises, and experiential opportunities enabling each participant to connect with the content on a personal level. The program is wide-ranging and encompasses a variety of topics to help participants develop increased self-awareness to enhance their relationships. Participants explore their childhood, adolescent, and adult trauma, relational struggles, particularly issues of healthy attachment, and other issues that male identified individuals often experience. The material in *Healing Men's Pain Curriculum* will stretch both participants and facilitators alike. The sessions are designed to take a deep and comprehensive look at everything that blocks men from being the best men they can be. The curriculum speaks to all learning styles through the use of art, physical movement, and roleplays. Participants are given additional learning opportunities in the form of assignments to complete between sessions. These assignments build upon the roleplays and in-session practice to help participants translate the material directly into their own lives. Help men address their traumas, develop self-awareness, and build healthier
