1969 Ford Mustang Mach 1 Mike Mueller,2018 By the time the 1969 model year rolled around it was well established that muscle cars were fast and plentiful Every manufacturer had at least one corner of the showroom where the go fast guys could congregate and discuss the merits and time slips of the latest performance offerings Competition being what it was the manufacturers were looking for ways to entice potential buyers to choose their product over ever increasing offerings from the competition Some manufacturers tried to accomplish this with affordable prices some tried fancy marketing schemes and some created a look and a style that screamed performance even when standing still The 1969 Mach I was Ford s attempt to create a package and a style to match the performance of its recently released and very potent 428 ci Cobra Jet engine package Displacing the still available but more conservative GT trim the Mach I included unique and innovative graphics and mechanical innovations including shaker hood scoops dual racing mirrors deluxe interiors competition suspension dual chrome exhaust tips and blacked out

manufacturers saw an enormous opportunity to produce go fast components to aid in propelling Ford's pony car down the 1320. The success of these cars was immediate. In the hands of successful and seasoned pros such as Gas Ronda, Bill Lawton, and Dick Brannan, Ford unleashed the devastatingly potent 1965 A/FX Mustang fastback, which was built by Blue Oval stalwarts Holman Moody with the 427 SOHC Cammer engine that unleashed havoc on mother Mopar. From those very first factory drag cars through the fabled 1968 1/2 Cobra Jets, drag racing historian Doug Boyce highlights the many successes of pioneers such as Dyno Don Nicholson, Les Ritchey, Phil Bonner, Hubert Platt, and Al Joniec. However, it's not just all doorslammers. As A/FX transitioned into Funny Car, a whole new chapter in Mustang drag racing was written with Mickey Thompson taking the reins and steering Mustangs to success throughout the late 1960s and early 1970s. The muscle car era Mustangs joined the Mustang II and soldiered on the best they could as ever-changing rules hampered Ford's new pony body with drivers Bob Glidden and Nicholson trying to squeeze every bit of performance out of the diminutive pony Quarter Mile Mustangs. *The History of Ford's Pony Car at the Drag Strip 1964-1978* brings forth the most in-depth coverage of these cars at the drag strip. Don't get caught sleeping at the light. [Wide-Open Muscle](#) Randy Leffingwell, 2016-05-17. Climb inside these stunning muscle car drop tops straight from the classic era of American high performance cars. Today's rarest, priciest, and most highly sought-after muscle cars are also the least practical. These are the striking convertibles of the 1960s and 1970s that were optioned out for drag racing. Wide Open Muscle showcases these rare cars and proves that sometimes it pays to throw practicality out the window in order to make something purely cool and fun to drive. At the peak of drag racing popularity, it was common knowledge that racers needed the lightest, most rigid-framed cars available. Convertibles represent the exact opposite of that description, so it's amazing that these drop tops ever emerged amid the circle of full-throttle dragsters. While typical convertible drivers cruised around listening to the latest Lovin' Spoonful release in the eight-track tape deck, these muscle car convertibles were equipped for rock'n'roll speed. These topless muscle cars are so rare because few people had the dedication or money to buy a vehicle this impractical. They're valuable because they represent the absolute extreme of the entire muscle car genre. All the cars in Wide Open Muscle are shot in similar fashion: studio style with a black background using a process known as light painting. It is the ultimate portrayal of the ultimate muscle cars.
