form a comprehensive understanding of Islam's evolution from its inception in Arabia to the present day. Combining chronological and thematic principles, this book examines Muslims' political and intellectual struggles over the meaning and practical implications of their faith. Treating Islam as a language that various factions and generations of Muslims have used to express their grievances, aspirations, and personal experiences and preferences, the book shows the religion's remarkable potency as a social, political, and cultural force and source of identity. It also describes and analyses Muslim devotional practices, emotional responses to the revelation, artistic and intellectual creativity, and patterns of everyday existence. The goal of this book is to help the reader to develop personal empathy for the subject by showing the relevance of the dilemmas faced by Muslims in different epochs and geographical locations to the burning issues of today's world. A thorough analysis of pivotal events, trends, and personalities of Islamic history is accompanied by witness accounts showing how they were perceived by Muslims themselves. This new edition features a thoroughly revised text, updated bibliography, new illustrations, study questions, and chapter summaries and is an outstanding resource for students of Islam and Muslim civilization.

Survivors: The second book of The Off World Trilogy Patrick Locke, 2014-12-24 In the second book of The Off World Trilogy, Jacob Young awakens to find himself alone and forsaken amidst the ruins of the destroyed planet TUE. Forced by the Khonians to fight in their ancient war against the Rha Ket Gar, Jacob and his fellow Saje endured the terrible battles and torture of their conscription, only to be betrayed and left to die as the massive planet-killer bombs rained down on them, sucking the oxygen from the planet's surface. Now further from home than ever, Jacob must face his fears, search for his missing comrades, and lead the Saje survivors on their quest to find their own way back to Earth. Along the way, they battle new enemies on land and in space while striving to retain the core of their humanity and, above all, hope.

Judaism and Islam: Boundaries, Communication and Interaction Benjamin Hary, John Hayes, Fred Astren, 2021-08-04 Several years ago an international conference was held at the University of California to honor Professor William Brinner, whose personal scholarship throughout the years has focused on both the Jewish and Muslim historical, cultural, and intellectual experiences. This volume, which consists of the works of many of the conference participants, is a collection of essays that deal with the interaction of Judaism and Islam over history from different perspectives. The book is divided into nine parts: introduction, overview, Jewish-Muslim interaction in medieval times, Jewish-Muslim interaction in modern times, Bible and Qur'an, law, philosophy, and ethics, sectarian communities, and language, linguistics, and literature. As a resolution to the Arab-Israeli conflict slowly edges forward, we believe that this publication will serve the purposes of both serious scholarship and better cultural understanding.
