Eren, 2019-03-10 There is a strong view that economics is the academic discipline that best represents the claim of positive science among social sciences Economics has undergone significant transformations after its emergence as a science Despite all these transformations the feature containing positive and normative elements has not changed While economists from the political economy tradition focus on qualitative studies that relate to other social sciences especially political science and history a group of economists adopt the qualitative methods of natural sciences to analyze economic problems There is a debate among economists on how to understand social reality and what kind of science the economy should be Business is a discipline that has declared its relative independence from economics over time Business is a research field that encompasses a wide range of areas ranging from organizational behavior of individuals to the firm's production and marketing strategies This book contains articles on essential topics related to these disciplines which have an inseparable relationship between them Academicians contributing to the book have produced works on current topics of discussion as well as key subjects that remain important in economics and management **Electrician - Power Distribution (Theory) -**

I Mr. Rohit Manglik, 2024-05-24 Focuses on power distribution systems line diagrams transformers conductors and basics of electrical supply grids *Strategic Management: Competitiveness and Globalisation* Dallas Hanson, Michael A. Hitt, R. Duane Ireland, Robert E. Hoskisson, 2016-09-29 With an emphasis on global advantage the text offers a comprehensive examination of regional and international issues to provide a complete accurate and up to date explanation of the strategic management process New coverage on environmental concerns and emerging technologies as well as examples and cases from Australia New Zealand and Asia Pacific serve to engage students while updated international content demonstrates how strategic management is used in the global economy The text takes a resource based approach which requires the examining

of a firm's unique bundling of its internal resources This text is appropriate for upper level undergrad usually third year post grad in Masters courses *State Capability in India* T. V. Somanathan, Gulzar Natarajan, 2022-04-04 The deficiencies in the capability of the state to design and implement effective policies are arguably the biggest development challenge facing developing countries like India This book seeks to assess state capability in India identify weaknesses in policy design and programme implementation and their causes and propose some measures to remedy them Importantly it does so while recognizing political economy constraints and focusing predominantly on the administrative contributors To this extent the book's suggestions are practical enough for adoption by stakeholders at different levels It describes the institutional design constitutional provisions the organizational structure and the personnel of the Indian state It covers a wide spectrum of aspects impacting state capability ranging from ideological narratives and systemic constraints to procedural and personnel management issues to the behaviours and attitudes of individual bureaucrats It offers a new analytical framework to think about effectiveness of state on the policy making process It also offers a nuanced perspective and suggestions on many of the popular themes in public administration size of the state generalist and specialist debates lateral entry digital monitoring systems in governance outsourcing and private participation use of consultants risk aversion in bureaucracies performance based incentives programme evaluations and so on Finally being participants and observers in the bureaucratic system the authors describe reality without always seeking to locate it in the framework of existing academic literature thereby offering fresh insights and enriching the discourse on state capability
