Werbner, 2004 Richard Werbner assesses the role of the Kalanga minority in Botswana Since independence the Kalanga have dominated government and business yet their strong values and stable social order has allowed them to forge effective alliances with other ethnic groups and to contribute to significant social improvements **Theoretical Approaches to African Linguistics** Akinbiyi Akinlabi, 1995 The first of a new series devoted to the study of African linguistics this study presents papers on a wide range of disciplines pertinent to the field that will be of interest to students and researchers This first volume includes work on Niger Congo languages such as Yoruba and Igbo and several Bantu languages *The Inconvenient Indigenous* Sidsel Saugestad, 2001 Saugestad examines the relationship between the government of Botswana and its indigenous minority variously known as Bushmen San Basarwa or more recently Noakwe *Multilingual Learning: Assessment, Ideologies and Policies in Sub-Saharan Africa* Colin Reilly, Feliciano Chimbutane, John Clegg, Casmir Rubagumya, Elizabeth J. Erling, 2023-11-30 This edited volume provides the follow up to Erling et al s 2021 *Multilingual Learning and Language Supportive Pedagogies in Sub Saharan Africa* The strategies put forward in Volume 1 included multilingual pedagogies that allow students to draw on their full linguistic repertoires translanguaging and other language supportive pedagogies While there is great traction in the pedagogical strategies proposed in Volume 1 limited progress has been made in terms of multilingual education in Sub Saharan Africa SSA Thus the main focus of this follow up volume is to explore the question of why former colonial languages and monolingual approaches continue to be used as the dominant languages of education even when we have multilingual pedagogies and materials that could and do work and despite substantial evidence that learners have difficulties when taught in a language they do not understand This book offers perspectives to answer this question through focusing on the internal and external pressures which impact the capacity for implementing multilingual strategies in educational contexts at regional national and community levels Chapters provide insights into how to better understand and work within these contemporary constraints and challenge dominant monoglossic discourses which inhibit

the implementation of multilingual education in SSA The volume focuses on three main areas which have proven to be stumbling blocks to the effective implementation of multilingual education to date namely assessment ideology and policy An insightful collection that will be of great interest to academics researchers and practitioners in the fields of language education language in education policy and educational assessments in the wide range of multilingual contexts in Africa
