Hunted By The Stag King:

Deer George A. Feldhamer, William J. McShea, 2012-02-15 Think of deer and the image that pops into most American minds is that of a white tailed deer the most common large mammal in North America Most Europeans are more familiar with red deer It may surprise many people to know that there are actually about 50 species of deer found throughout the world Here readers will find nontechnical expert information about the wide range of diverse deer species Did you know that elk and caribou are deer Or that the earliest fossils of deer are 15 to 20 million years old Have you ever wondered whether deer swim play or see color How do deer avoid predators and survive the winter Do deer make good pets or carry contagious diseases George A Feldhamer and William J McShea answer these and other intriguing questions about members of the deer family Cervidae From the diminutive pudu of South America that weighs 17 pounds to male moose that weigh close to 2 000 pounds Feldhamer and McShea explore the biology evolution ecology feeding habits reproduction and behavior of deer They chronicle the relationships between humans and deer both positive and negative and discuss the challenges of deer conservation and management With vivid color photographs and an accessible and engaging question and answer format this easy to read book is the go to resource on deer Nature lovers hunters and anyone curious about deer will find this fact filled book both fascinating and full of surprises

The Red Deer of Exmoor, with Notes on Those who Hunted Them, from Robert D'Auberville, 1070, to Robert Arthur Sanders, 1906 Archibald Hamilton, 1907 **The Queen's Hounds and Stag-Hunting Recollections** Lord Ribblesdale, 2017-09-21 First published in 1897 just at the end of the Victorian age this book is a glimpse into a world that few would ever see the hunting lodges and estates of the upper echelons of British society Including chapters on Deer the new school of hunting kennels and stables banks and ditches Ascot affairs French horses the empire and the republic and many more This text has been republished here for its historical and cultural significance Including a new introduction on the Foxhound

Hunters, Heroes, Kings Hallie M. Franks, 2012-10-01 This monograph considers the painted frieze on the facade of Tomb II at Vergina ca 330 280 B C as a visual document that offers vital evidence for the public self stylings of Macedonian royalty in the era surrounding the reign of Alexander the Great The hunting scene on the frieze reflects the construction of Macedonian royal identity through the appeal to specific and long standing cultural traditions which emerged long before Alexanders reign out of a complex negotiation of claims to heroic and local dynastic pasts regional ideals of kingship and models of royal behavior provided by the East *Cultural Visions: Essays in the History of Culture*, 2022-03-07 This collection opens with an inquiry into the assumptions and methods of the historical study of culture comparing the new cultural history with the old Thirteen essays follow each defining a problem within a particular culture In the first section Biography and Autobiography three scholars explore historically changing types of self conception each reflecting larger cultural meanings essays included examine Italian Renaissance biographers and the autobiographies of Benjamin Franklin and Mohandas Gandhi A second group of contributors explore problems raised by the

writing of history itself especially as it relates to a notion of culture Here examples are drawn from the writings of Thucydides Jacob Burckhardt and the art historians Alois Riegl and Josef Strzygowski In the third section Politics Nationalism and Culture the essays explore relationships between cultural creativity and national identity with case studies focusing on the Holy Roman Emperor Maximilian I the place of Castile within the national history of Spain and the impact of World War I on work of Thomas Mann The final section Cultural Translation raises the complex questions of cultural influence and the transmission of traditions over time through studies of Philo of Alexandria s interpretation of the Hebrew Bible Erasmus use of Socrates Jean Bodin s conception of Roman law and adaptations of the Hebrew Bible for American children

Lies of the Land Camille Serchuk,2024-12-17 Lies of the Land examines the often overlooked artistic roots of mapmaking practice in early modern France offering an original perspective on discourses of accuracy and their relationship to the pictorial origins of modern mapmaking Until the seventeenth century most mapmakers in France were painters Schooled in techniques of drawing and perspective and in the careful study of nature that we associate with early modernity they also learned the more expressive and imaginative Mannerist forms that dominated French painting in this period Their maps draw on conventions of both painting and mapmaking to create beautiful informative and persuasive images for a wide variety of contexts and purposes In this book Camille Serchuk explores the strategies these cartographers deployed to weave together accuracy ornament and artifice in maps at all scales Looking beyond the techniques of measurement and perspective Serchuk shows how painterly interventions framed and manipulated the appearance and reception of cartographic objects Lies of the Land is an important new assessment of the character and status of early modern cartography that challenges binary distinctions between art and science and between decorative and epistemic images It will appeal especially to art historians and historians of sixteenth century France as well as scholars of map history

King of the World Philip Mansel,2020-09-01 Louis XIV was a man in pursuit of glory Not content to be the ruler of a world power he wanted the power to rule the world And for a time he came tantalizingly close Philip Mansel s *King of the World* is the most comprehensive and up to date biography in English of this hypnotic flawed figure who continues to captivate our attention This lively work takes Louis outside Versailles and shows the true extent of his global ambitions with stops in London Madrid Constantinople Bangkok and beyond We witness the importance of his alliance with the Spanish crown and his success in securing Spain for his descendants his enmity with England and his relations with the rest of Europe as well as Asia Africa and the Americas We also see the king s effect on the two great global diasporas of Huguenots and Jacobites and their influence on him as he failed in his brutal attempts to stop Protestants from leaving France Along the way we are enveloped in the splendor of Louis s court and the

fascinating cast of characters who prostrated and plotted within it King of the World is exceptionally researched drawing on international archives and incorporating sources who knew the king intimately including the newly released correspondence of Louis's second wife Madame de Maintenon Mansel's narrative flair is a perfect match for this grand figure and he brings the Sun King's world to vivid life This is a global biography of a global king whose power was extensive but also limited by laws and circumstances and whose interests and ambitions stretched far beyond his homeland Through it all we watch Louis XIV progressively turn from a dazzling attractive young king to a belligerent reactionary who sets France on the path to 1789 It is a convincing and compelling portrait of a man who three hundred years after his death still epitomizes the idea of le grand monarque

Scott the Rhymer Nancy Moore Goslee, 2021-12-14 Renewed arguments over the definition of Romanticism warrant a new look at the narrative poetry of Sir Walter Scott Nancy Moore Goslee's study the first full treatment of Scott's poems in many years will do for his poetry what Judith Wilt's book has done for his novels Already a subtle reader of the high Romantics and their celebrations of the visionary imagination Goslee draws upon several recent critical developments for this study of Scott a growing tendency among critics of his novels to see romance as a positive strength the broader development of narrative theory and feminist theory Like Thomas the Rhymer the half historical half mythic minstrel who rides off with the elfin queen Scott's poems repeatedly accept the world of romance and yet challenge it often wittily with an array of hermeneutic perspectives upon its function The perspectives Goslee considers most fully are the development of poetry from a communal oral performance to a written published document the larger more violent development of Scottish and British history from feudal to modern cultures and the repeated contrast in that succession of cultures between the limited passive role of most actual women and their active powerful role as elfin queen or enchantress in the romance As if drawn toward yet simultaneously repelled by such women Scott alternates between poems in which enchantresses seem to control their worlds and those in which women are only pawns desirable for the land they inherit The poems of the latter group are more realistically historical in plot turning upon major battles those of the former are more romantic and magical Yet both follow similar narrative patterns derived from medieval and especially Renaissance romance Both too show a wandering in more primitive violent societies which delays the rational gradual progress seen as cultural salvation by Enlightenment historians

The Encyclopaedia Britannica, 1910 **Chambers's Edinburgh Journal**, 1909 Sport as Symbol Mari Womack, 2003-01-01 Upon first consideration sport and art seem to occupy separate even opposing realms sport associated with physical prowess and art with the highest reaches of the human mind But because sport is such a powerful metaphor for so many human experiences it has found its way into artistic traditions all over the world Part One of this book provides a basic understanding of sport as symbol Part Two gives attention to animals as adversaries and traces the origins of sporting art back to the hunt Part Three considers humans competing against humans in combat sports ball games stick

and ball games and racquet sports as well as in warfare Part Four concentrates on contesting with oneself in races and sports of grace and beauty such as gymnastics figure skating and ice dancing The book concludes with a discussion of the athlete s relationships to society The Encyclopædia Britannica Hugh Chisholm,James Louis Garvin,1926 **The Sphere**,1900
