The Holocene and Anthropocene Environmental History of Mexico Nuria Torrescano-Valle, Gerald A. Islebe, Priyadarsi D. Roy, 2019-12-02 This book provides essential information on Mexico's Holocene and Anthropocene climate and vegetation history. Considering the geography of Mexico which is home to a variety of climatic and environmental conditions from desert and tropical to high mountain climates, this book focuses on its postglacial paleoecology and paleoclimatology. Further, it analyses human intervention since the middle Holocene as a major agent of environmental change. Offering a valuable tool for understanding past climate change and its relationship with present climate change, the book is a must-read for botanists, ecologists, palaeontologists, and graduate students in related fields.

Crime Wars and Narco Terrorism in the Americas Robert J. Bunker, 2014-07-16 This work marks the 3rd Small Wars Journal El Centro anthology. Its analyses, crafted by over thirty contributing authors, form a compilation of the violence and corruption in Mexico plaguing the first year of Enrique Peña Nieto's presidency. Instances of spillover violence in the United States and the gang and cartel crime wars in other Latin American countries are also chronicled. Spanish language article appendices are additionally incorporated in this important anthology. Dave Dilegge, SWJ Editor in Chief.

Of Rainfalls and Disasters Juan Manuel Rodríguez Esteves, Disasters associated with natural phenomena such as earthquakes, floods, droughts, etcetera, are intensifying damages that translate into deaths, the loss of infrastructure, and the interruption of economic activities. The accelerated growth of cities frequently incorporates new areas that are susceptible to certain hazards, leaving society increasingly exposed due to a mismanagement of land. Since the 1990s, the social sciences have developed the approach of vulnerability, which considers the conditions of weakness of a society to cope with hazards. We now know that risk is socially constructed, and so disasters are not only a result of the intensity of the geophysical phenomena that unleash them but also of the contexts of vulnerability present when a phenomenon takes place. The aim of this work is to show how the risk of flood disasters is constructed in Tijuana, Baja California, with four main elements as our starting point: An examination of floods since the late 19th century; the voice of the actors present for flooding events; a theoretical model to understand the relationship between the hazard and the magnitude of the risk; and recommendations for disaster risk management at a local level.

Hurricanes and Carnivals Lee Gutkind, 2007 In *Mexico*, writes Ilan Stavans in the introduction to this provocative new collection on Mexican culture and politics, the essay is embraced as passionately as a sport. While the American essay may be personal and confessional or erudite and academic, it is presumed to be truthful. By contrast, the Mexican essay pushes the boundaries between fact and fiction, as writers seek to make their opinions heard in literary journals, in newspapers, and even on cereal boxes. What is real and what isn't in a Mexican essay, only God knows, concludes Stavans. In *Hurricanes and Carnivals*, Lee Gutkind, a pioneer in the teaching of creative nonfiction, brings together fifteen essays by Mexican, Mexican American, and Latin American writers that push the boundaries of style and form, showing that navigating truth is anything but clear-cut. Although creative

nonfiction is widely thought to be an American art form this collection proves otherwise By blending fact and fiction story and fantasy history and mythology these writers and others push the bounds of the essay to present a vision of Mexico rarely seen from this side of the border Addressing topics that include immigration politics ecology violence family and sexuality they take literary license on a whirlwind adventure C M Mayo shows us Mexico City as seen through the eyes of her pug Picadou Juan Villoro examines modern Mexico through the lens of demography Homero Aridjis uses the plight of nesting sea turtles to document a slowly changing Mexican attitude toward natural resources and Sam Quinones documents the decline of beauty queen addiction in Mazatlán and tells us about the flower festivals where according to lore only two things matter hurricanes and carnivals For readers interested in a literary view of contemporary Mexico as well as students of the creative nonfiction genre this volume is essential

Awaiting Their Feast Lori A. Flores, 2025-01-10 Though Latinx foodways are eagerly embraced and consumed by people across the United States, the nation exhibits a much more fraught relationship with Latinx people, including the largely underpaid and migrant workers who harvest, process, cook and sell this desirable food. Lori A. Flores traces how our dual appetite for Latinx food and Latinx food labor has evolved from the World War II era to the COVID-19 pandemic, using the US Northeast as an unexpected microcosm of this national history. Spanning the experiences of food workers with roots in Mexico, Puerto Rico, Cuba, the Dominican Republic, Haiti and Central America, Flores's narrative travels from New Jersey to Maine and examines different links in the food chain, from farming to restaurants to seafood processing to the deliverista rights movement. What unites this eclectic material is Flores's contention that as our appetite for Latinx food has grown exponentially, the visibility of Latinx food workers has demonstrably decreased. This precariat is anything but passive, however, and has historically fought and is still fighting against low wages and exploitation, medical neglect, criminalization and deeply ironic food insecurity.
