Human Rights Manual and Sourcebook for Africa Keir Starmer,Theodora A. Christou,2005 At a time when the issue
of human rights in Africa is making many advances Human Rights Sourcebook and Manual for Africa introduces easy to use
jurisprudence The first section covers key principles and human rights norms which are detailed in straightforward language
The second section is devoted to the death penalty detailing the relevant provisions from both international and regional
instruments and offering a comparative commentary as to how the principles and relevant rights relate to the death penalty
The third section summarizes key case law from international regional and domestic African courts and tribunals The case
summaries detail the facts and decisions and include a headnote of relevant concepts for quick reference The fourth section
focuses on thirteen African countries yet the reports are a useful comparative resource for all countries From conducting the
research and compiling the material for this final section it is apparent that nothing like this has been attempted before in
Africa Much of the work emanates from primary research and investigation conducted by local research teams in the
individual countries Investigative research includes visiting prisons physically counting the individuals on death row and
interviewing the detainees to obtain their age and the length of time they had been on death row
