July 2013 Daycare Parent Newsletter

Richard Carr

July 2013 Daycare Parent Newsletter:

After the Rise and Stall of American Feminism Lynn S. Chancer, 2019-02-26 It is more than fifty years since Betty Friedan diagnosed malaise among suburban housewives and the National Organization of Women was founded. Across the decades the feminist movement brought about significant progress on workplace discrimination, reproductive rights and sexual assault. Yet the proverbial million dollar question remains: why is there still so much to be done? With this book, Lynn S. Chancer takes stock of the American feminist movement and engages with a new burst of feminist activism. She articulates four common causes: advancing political and economic equality, allowing intimate and sexual freedom, ending violence against women, and expanding the cultural representation of women, considering each in turn to assess what has been gained or not. It is around these shared concerns, Chancer argues, that we can continue to build a vibrant and expansive feminist movement. *After the Rise and Stall of American Feminism* takes the long view of the successes and shortcomings of feminism. Chancer articulates a broad agenda developed through advancing intersectional concerns about class, race, and sexuality. She advocates ways to reduce the divisiveness that too frequently emphasizes points of disagreement over shared aims. And she offers a vision of individual and social life that does not separate the personal from the political. Ultimately, this book is about not only redressing problems but also reasserting a future for feminism and its enduring ability to change the world.

Parenting Culture Studies Ellie Lee, Jennie Bristow, Charlotte Faircloth, Jan Macvarish, 2015-12-04 Why have the minutiae of how parents raise their children become routine sources of public debate and policy making? This book provides in-depth answers to these features, drawing on a wide range of sources from sociology, history, anthropology, and psychology, covering developments in both Europe and North America.

Raising a Nation Elliot Haspel, 2025 Thanks to a history of neglect, child care in America is expensive, scarce, and of questionable quality. Yet too often the response is not a push for governmental action but a derisive "why should I pay for your child?" At best, our leaders make the case for child care on bloodless economic grounds: we need a place to put the kids so parents can work. The problem, I believe, is that we skipped a step so fundamental that it has torpedoed the chances of winning an effective child care system: despite a decade after a decade of pain that crosses geographic and ideological borders, we have never established that good child care belongs among the pantheon of American values. Because of what it means for the nation, that is exactly where child care belongs. *Raising a Nation* offers a new framework for thinking about a comprehensive, inclusive child care system, one that supports families in all their diversity, whether they want to utilize a licensed child care program, family member, or have a parent be the primary child care provider. I posit 10 distinct yet interlinking cases for why every American, whatever their political affiliation and whether or not they have young children or any children at all, has skin in the game when it comes to the country's child care system. This groundbreaking book opens up conversations that can finally push child care from being seen as a private responsibility to being seen as an essential part of the American social fabric. Autonomy, Care and Family Law Anna Heenan, 2024-01-11 There is a tension at the heart of family law and policy between the increasing influence of individual autonomy and the demands of caring for children Individual autonomy envisages decisions made in one's own best interests whereas decisions around care are often made for the good of the family and may conflict with the caregiver's individual interests Whereas individual autonomy valorises economic self sufficiency caregiving responsibilities constrain choice and conflict with paid work This book explores this tension to consider how given changing social trends family law and policy should take account of caregiving responsibilities on parental separation Crucially it suggests that we need to rethink family law by placing care at its centre This book draws on original empirical data to explore the experiences of parents in England and Wales where the division of paid work and care is considered a choice and Sweden where parents are encouraged to work full time supported by wellfunded state childcare This comparative perspective sheds light on whether the clash between the ideas of autonomy and care could be reconciled in a more gender equal society The book argues that caregiving is hidden from and undervalued by law and policy in both jurisdictions underscoring the need for the proposed new approach The law needs to think more deeply about what it means to care and how the care provided by parents differs Anna Heenan outlines how family law might look different if the proposed framework based on placing care at the heart of family law is adopted

Religion and the Exercise of Public Authority Benjamin L Berger, Richard Moon, 2016-06-16 In the burgeoning literature on law and religion scholarly attention has tended to focus on broad questions concerning the scope of religious freedom the nature of toleration and the meaning of secularism An under examined issue is how religion figures in the decisions actions and experiences of those charged with performing public duties This point of contact between religion and public authority has generated a range of legal and political controversies around issues such as the wearing of religious symbols by public officials prayer at municipal government meetings religious education and conscientious objection by public servants Authored by scholars from a variety of disciplines the chapters in this volume provide insight into these and other issues Yet the volume also provides an entry point into a deeper examination of the concepts that are often used to organise and manage religious diversity notably state neutrality By examining the exercise of public authority by individuals who are religiously committed or who in the discharge of their public responsibilities must account for those who are this volume exposes the assumptions about legal and political life that underlie the concept of state neutrality and reveals its limits as a governing ideal

Duquaine-Watson,2017-05-31 In *Mothering by Degrees* Jillian Duquaine Watson shows how single mothers pursuing college degrees must navigate a difficult course as they attempt to reconcile their identities as single moms college students and in many cases employees They also negotiate a balance between what they think a good mother should be and what society is telling them and how that affects their choices to go to college and whether to stay in college or not The first book length study to focus on the lives and experiences of single mothers who are college students *Mothering by Degrees* points out how these women are influenced by dominant American ideologies of motherhood and the institutional parameters of the schools they attend and argues for increased attention to the specific ways in which the choices challenges and opportunities available to mothers are shaped within their specific environments as well as the ways in which mothers help shape those environments

Hayday, 2015-09-15 Since the 1960s bilingualism has become a defining aspect of Canadian identity And yet today relatively few English Canadians speak or choose to speak French Why has personal bilingualism failed to increase as much as attitudes about bilingualism as a Canadian value In *So They Want Us to Learn French* Matthew Hayday explores the various ways in which bilingualism was promoted to English speaking Canadians from the 1960s to the late 1990s He analyzes the strategies and tactics employed by organizations on both sides of the bilingualism debate Against a dramatic background of constitutional change and controversy economic turmoil demographic shifts and the on again off again possibility of Quebec separatism English speaking Canadians had to decide whether they and their children should learn French Highlighting the personal experiences of proponents and advocates Hayday provides a vivid narrative of a complex controversial and fundamentally Canadian question *We Walk* Amy S. S F Lutz writes openly about her experience the positive and the negative as a mother of a now twenty one year old son with severe autism Lutz's human emotion drives through each page and challenges commonly held ideas that define autism either as a disease or as neurodiversity *We Walk* is inspired by her own questions What is the place of intellectually and developmentally disabled people in society What responsibilities do we as citizens and human beings have to one another Who should decide for those who cannot decide for themselves What is the meaning of religion to someone with no abstract language Exploring these questions *We Walk* directly and humanly examines social issues such as inclusion religion therapeutics and friendship through the lens of severe autism In a world where public perception of autism is largely shaped

by the quirky geniuses featured on television shows like *The Big Bang Theory* and *The Good Doctor* We Walk demands that we center our debates about this disorder on those who are most affected by its impacts Balancing the Big Stuff Miriam Liss, Holly H. Schiffrin, 2014-08-07 While the current conversation about work family balance and having it all tends to focus on women both men and women are harmed when conditions make it impossible to balance meaningful work with family life Yet both will benefit from re evaluating what it means to have it all and fighting for changes in their relationships and society to make greater equality possible Here Miriam Liss and Holly Hollomon Schiffrin discuss the ways in which we all define having it all and how we can obtain it for ourselves through a better evaluation of what we want from ourselves our families our jobs and each other Determining a 50 50 division of labor around the house may not be the thing that works for everyone Working from home or not at all may not be the thing to bring us satisfaction but learning what studies show and how to feel balanced and make those decisions to bring balance is crucial The authors argue that people can find balance in their roles by doing things in moderation Although being engaged in both parenting and work is good for well being people can avoid the pitfalls of over parenting and over working They show that balance can come from a meaningful consideration of what happiness and contentedness mean to us as individuals and how best to achieve our goals within the limitations of our current circumstances They illustrate that balance is not simply an individual problem Social issues such as the lack of parental leave flexible work schedules and affordable high quality child care make balance difficult With attention now on the issue they argue that it s time men and women advocate for better services and better opportunities to achieve balance happiness and success in all their roles *Not Guilty* Nicolette Rubinsztein, 2016-09-01 Can career mums have a fulfilling career and a happy family Director strategy expert actuary former General Manager at the Commonwealth Bank and mother of three Nicolette Rubinsztein experienced the tough journey of juggling motherhood and her career Both were important to her but the status quo was brutal By applying the same strategic rigour she used in business to her life as a career mum she learned how to genuinely lean in to her career AND enjoy raising her family In *Not Guilty* Nicolette gives career mums the practical tools to approach their work and life through the lens of strategy and business decision making rather than emotion and guilt Learn why flexibility is nirvana for career mums how to get a part time position getting on the same page as your partner curating your childcare jigsaw the importance of outsourcing and how to have a good relationship with your boss Structured according to the McKinsey 7S strategic framework one of the most well known strategic frameworks used for business *Not Guilty* is a call to arms and saving grace for women who want to make career and motherhood work but don t know where to start Home, School, and Community Collaboration Kathy B. Grant, Julie A. Ray, 2018-02-27 Filled with practical suggestions and reflective opportunities this book uses the culturally responsive family support model as a framework to prepare readers to work with children from diverse families *How All Politics Became Reproductive Politics* Laura Briggs, 2017-09-12 Today all politics are reproductive politics argues esteemed feminist critic Laura Briggs From

longer work hours to the election of Donald Trump our current political crisis is above all about reproduction Households are where we face our economic realities as social safety nets get cut and wages decline Briggs brilliantly outlines how politicians racist accounts of reproduction stories of Black welfare queens and Latina breeding machines were the leading wedge in the government and business disinvestment in families With decreasing wages rising McJobs and no resources for family care our households have grown ever more precarious over the past forty years in sharply race and class stratified ways This crisis argues Briggs fuels all others from immigration to gay marriage anti feminism to the rise of the Tea Party

Psychopathology at School Valerie Harwood, Julie Allan, 2014-03-26 *Psychopathology at School* provides a timely response to concerns about the rising numbers of children whose behaviour is recognised and understood as a medicalised condition rather than simply as poor behaviour caused by other factors It is the first scholarly analysis of psychopathology which draws on the philosophers Foucault Deleuze Guattari and Arendt to examine the processes whereby children s behaviour is pathologised The heightened attention to mental disorders is contrasted with education practices in the early and mid to late twentieth century and the emergence of a new conceptualization of childhood is explored Taking education as a central component to the contemporary experience of growing up the book charts the ways in which mental disorders have become commonplace in childhood and youth from birth through to college and university but also offers examples of where professionals have refused to pathologise children s behaviour The book examines the extent of the influence of psychopathology on the lives of children and young people as well as the practices that infiltrate education and the possibilities for alternative educational responses that negate the diagnosis of mental disorder *Psychopathology at School* is a must read for anyone concerned about the growing influence of psychopathology in education and will be of particular interest to educated readers and to scholars students and professionals in education psychiatry psychology child studies youth studies nursing social work and sociology
