**The Materials of Reading** Willis Lemon Uhl, 1924 Every supervisor and teacher of reading and literature is required to select and organize content for courses Even if a course of study is uniform for a city or state the successful

teacher must supplement and reorganize the prescribed content to meet the needs of a specific class. The purpose of this book is to facilitate such selection and organization by presenting an interpretation of the experiences of thousands of teachers and the conclusions of many investigators. This book is intended for all teachers and prospective teachers of reading and literature.

*JBL Audio Engineering for Sound Reinforcement* John M. Eargle, Chris Foreman, 2002-05-01. Book. This up-to-date book comprehensively covers all aspects of speech and music sound reinforcement. It is roughly divided into four sections. Section 1 provides the tutorial fundamentals that all audio engineers will need, discussing subjects such as fundamentals of acoustics, psychoacoustics, basic electrical theory, and digital processing. Section 2 deals with the fundamental classes of hardware that the modern engineer will use, such as loudspeaker systems and components, microphones, mixers, amplifiers, and signal processors. Special attention is given to digital techniques for system control and to audio signal analysis. Section 3 deals with the basics of system design from concept to final realization. It covers topics such as basic system type and speech intelligibility, site survey, user needs analysis, and project management. Section 4 discusses individual design areas such as sports facilities, large scale tour sound systems, high level music playback systems for the theater, religious facilities, and other meeting spaces. The book is written in an accessible style but does not lack for ample amounts of technical information. It is truly a book for the 21st century.
